'QUAKE SHOCK WIPES OUT QUETTA

Mastung Laid Flat; Kelat in Ruins

Staggering Casualties

Over Thousand Killed: Several Missing: Railway Track Disappears : R. A. F. Suffers Heavily.

Friday morning's earthquake shock at Quetta and in the surrounding places appears to have produced almost as disastrous results as the Bihar Earthquake of the last year.

The first estimate of casualties received indicates that in Quetta City alone over a thousand persons have been killed.

The R. A. F. appears to have suffered severely, forty-three airmen being killed, while nearly 20 to 30 persons are missing. Considerable damage has been done to both machines and buildings.

"Quetta absolutely gone. Heavy casualties" is reported to be the first wireless message received by the Lahore Railway Authorities about the disaster.

Information received through the Lahore Railway authorities shows that two shocks in succession were felt, commencing from 2 a.m., the second shock being of about three minutes' duration, which has caused the largest havoc.

It is reported that the Quetta Railway Station with the adjacent buildings along with 12 miles of railway track has disappeared. None knows the fate of the station staff, though it is presumed that other railway officials are safe.

A later report states that Mastung has been laid flat and four-fifths of the population have been killed, as also of the surrounding villages.

MAHATMA SEES "FRONTIER GANDHI"

Abdul Gaffar Khan Happy And Cheerful Though Reduced And Weak

AHMEDABAD, May 31.

The gates of the Sabarmati Jail were hung open at 4-25 p.m. for Gandhiji, who accompanied by Sardar Vallabhai Patel, interviewed Khan Abdul Ghafar Khan who is undergoing imprisonment.

A touching scene occurred when Khan Abdul Gafur Khan was brought in the presence of Gandhiji and Sardar Patel.

All the three burst into loud laughter, echoes of which were heard outside the walls of the Jail.

After the conclusion of the interview, Gandhiji said to the pressmen in an interview whith was carried on in Hindustani that he found Khan Abdul Gafar Khan cheerful and happy, though considerably reduced and weak. His conversation with him was throughout about family affairs.—A. P.

MAHATMA'S STATEMENT

After interviewing Khan Abdul Gaffar Khan in Saharmati Jail this afternoon, Mahatmaji issued the following statement to the "United Press":—

"Gaffar Khan is cheerful and happy, though considerably reduced. He looks weak. Our conversation throughout was about the members of his family."

Gandhiji will meet Mr. Khandu Bhai Desai of the Labour Union and Seth Kasturbhai Lalbhai, President of the Millowners' Association to-night. He leaves for Baroda at 11 p.m. to-day, and the whole of to-morrow, he will be there. From Baroda he goes straight to Wardha.—United Press.

WHY MAHATMA CHOSE WARDHA

Facilities For Ashram And A. I. V. I. Work

AHMEDABAD, May 31.

Mahatma Gandhi arrived here this morning. Immediately after his arrival, he granted an interview to journalists.

Answering several questions, Gandhiji said that plague was practically exterminated from Borsad.

WHY HE SELECTED WARDHA.

The conversation next turned to the village industries work.

Asked as to why he selected Wardha as his Head Quarters Gandhiji said "Because Wardha is in the centre of India, and it was in Wardha that I was able to get a rich piece of land with buildings and plenty of water, lands worth over two lakhs. There are nearly 700 fruit trees on the land. I selected Wardha also because, Seth Jamnalal Bajaj was most anxious that the land which he had contemplated as donation for Maganlal Gandhi memorial should be taken up by the All-India Village Industries Association. Lastly Wardha is a half-village and half-town, and my own desire and that of my associates was that the head-quarters should not be selected in any presidency town. There was an additional attraction of Vinoba and his band of workers already trained at the Wardha Ashram. These were sufficient inducements for all of us for selecting Wardha as Head Quarters."

A. I. V. I. WORK.

Answering further question, Gandhiji said that he did not propose to move out of Wardha as far as possible in order that the work might go on in his presence, as the conception was his. Moreover, it was advisable that all office-bearers of the Association should be in close touch with him and that he might be available, whenever any of them wanted his guidance at Wardha. They met daily for 1-1|2 hours except on Mondays.

Asked as to whether it was a fact that he had left Gujarat because he was dissatisfied with her, Gandhiji said that that was altogether a wrong notion. On the contrary "It is not without consi-

Worst Fears Confirmed

Disaster Overshadows Simla Garden Party

SIMLA, May 31.

The worst fears of the gravity of the earthquake situation are confirmed to-night, though little fresh details are forthcoming, owing to the destruction of the Quetta wireless station.

All messages are arriving by wireless from Sibi.

Besides forty-three airmen dead, other twenty to thirty are missing.

The Kelat city is also reported to be in ruins.

H. E. the Viceroy, has telegraphed to the A.G.G., Baluchistan his deepest sympathies with the sufferers. The Viceregal Garden Party which was held being too late to postpone, was overshadowed by the disaster which was the only topic of conversation.—A.P.

DAMAGE TO R. A. F. MACHINES

SIMLA, May 31.

The following telegram has been sent to the Secretary of State by the Political Department, Government of India:—

"Casualties to the troops are not yet ascertained, but it is believed to be slight. The troops accommodation is intact. Forty-three Royal Air Force Airmen are known to be killed and 20 to 30 missing. Considerable damage is done both to buildings and machines in the R. A. F. area. The Staff College area is not damaged. Many officers' bungalows are wrecked. But so far as known, no casualties amongst R. A. F. or Military Officers have occurred, except that Pilot Officer Tailor is killed and the eldest child of Right Lieutenant Piggs is missing."—United Press.

ALL RAZED TO GROUND

SIMLA, May 31.

Further advices received from Quetta indicate that the earthquake shocks were intense and lasted several minutes. It is stated that Railway and Civil areas have been razed to the ground. The Railway Officers are safe, although casualties among other railway employees and civil population have been extensive. Damage to property is very big, although no calculation is possible at the present moment. The Military population is safe.—United Press.

KING'S SYMPATHY

LONDON, May 31.

The King has telegraphed to the Viceroy as follows:—"Queen and I are greatly shocked to hear the tragic disaster at Quetta, involving loss of many valuable lives among the European and Indian population. Our hearts go out in sympathy to the breaved, injured and those whose homes and property are destroyed. Please keep me informed of any further news.—Reuter.

'QUAKE'S LATEST

KARACHI, May 31.

The Corporation adjourned its meeting this evening as a mark of its profound sorrow at the appalling disaster and resolved to direct the Chief Officer to despatch medical aid and requested the Mayor to call an emergent meeting of the citizens to start a 'Mayor's Relief Fund.'

CHAMAN WIPED OUT?

Rescue work by the military is already in progress. So far 153 Indians and 50 Europeans have been extricated from the debris and sent to hospital. It is believed Babu and Moti Mohallas, thickly populated parts of the city, mainly tenanted by Sindhis and other floating population were razed to the ground. Two R.A.F. planes are likely to take off to-morrow morning. Other local planes may be requisitioned for relief work. Private agencies are arranging relief parties.

Several unconfirmed reports are trickling through the city according to which Bruce Road, the main bazaar in Quetta is on fire. A severe storm is blowing and also that Chaman an important frontier outpost has been wiped out.—A.P.

DEHRA DUN RECORDS SHOCK

DEHRA DUN, May 31.

The Survey Seismograph recorded an earthquake of great intensity at 3 hours 6 minutes this morning followed by an after shock of slight intensity at 7 hours 38 minutes, it is estimated, at a distance of about 600 miles.

A message from Jodhpur says that the loop line from Jhudo to Pithoro (sixty-four miles) will be opened for all traffic from June 1.

Appalling Disaster

Quetta Police Force Wiped Out

SIMLA, May 31.

The following cable has been sent to ths Secretary of State for India, London from the Foreign Political Department, Simla:—

"An appalling earthquake is reported to have occurred in Quetta at 3 a.m. to-day. Fragmentary wireless reports hitherto received state that the City Civil and Railway areas have been devastated with, it is feared, very heavy casualties.

"The following civil officers are reported to have been killed:

1. Mr. Meredith Jones of the Political Department, his wife and his mother-in-law Mrs. Bradford.
2. Mr. and Mrs. Francis, Irrigation Engineer.

Mr. Norman Cater is reported to be safe, and other Civil Officers have presumably escaped, but Lt.-Col. Severn Williams and Major Rupert Hay (On visit to Kabul), Mr. Wakefield and Mr. Francis are each reported to have lost one child. Many casualties are feared among subordinate civil and police officers, and the police force is said to have been almost wiped out.

The College and military area was not seriously affected, and all the staff of the College and officers are reported to be safe.

No railway officer is killed, but heavy casualties are feared among subordinates.

OVER 1,000 DEAD.

Quetta town and civil lines are greatly affected. The cantonment is practically untouched, but the Air Force lines are reported to be very badly damaged with many casualties. The casualties in the city must be over a thousand.

It appears that Telegraph lines have been seriously affected, and news trickling up here in fragmentary wireless messages.—United Press.

EXTENSIVE AREA AFFECTED

KARACHI, May 31.

Quetta, which according to expert opinion is amenable to earthquake shocks, appears to have been the worst affected last night.

According to unconfirmed reports which reached here the civil quarters were badly affected though the cantonment is less

POLICE RAID I. I. LEAGUE OFFICE

Copies Of "Viewpoint Of Communist Opposition Seized

A sensation was caused at Girgaum when office of the Independence of India League was raided by the C.I.D. police on Friday, and 67 copies of a pamphlet entitled "The view point of the Communist opposition" were seized under a warrant.

Rao Bahadur Patwardhan who executed the warrant was accompanied by a posse of constables. It appears that the pamphlet seized by them is a publication proscribed by the Bengal Government.

The office of the League which is in Vallabh Building Banham Hall Lane, Girgaum, was besieged by an eager crowd and speculation ran riot until the object of the visit was made known.

MAULANA SHAH SOLAIMAN DEAD

PATNA, May 31.

Maulana Shah Solaiman, a famous theologian, a well-known Sufia and an accredited leader of the Indian Muslim world, passed away, at the ripe age of 80, this morning at 7 in his residence at Fulwari Sharif, Patna.

He was the right hand man of late Sir Syed Ahmad Khan, the founder of the Aligarh University. Shah Saheb was the first Sufi, advocating the cause of English education among the Muslims. He was one of the founders of Nadwat-ul-ulama at Lucknow and the President of Jamiat-ul-ulama of Cawnpore.

He leaves behind three sons, several grand sons and a large number of disciples in India and abroad.—United Press.

Congressman Asked To Quit Town

NAWAB SHAH, May 30.

A Congress worker who came here from Mithi in the district of Tharparkar, was arrested by the local police and eventually let off, on condition that he would quit the town within 24 hours.

It is stated that the man in question, was here on a professional visit and used to go about in the streets early at dawn, singing national songs.—United Press.

RUSSELL FOR QUETTA

SIMLA, May 31.

"Sir Guthrie Russell, Chief Commissioner for Railways, is leaving for Quetta to-morrow personally to supervise the extent of Railway damages.—A.P.

SEVERE 'QUAKE SHOCK

BOMBAY, May 31.

The Colaba Observatory reports an earthquake shock of great intensity with its origin at about 960 miles away from Bombay at 03-06 hours I.S.T. this morning. The epicentral region of the shock is located by Dr. Roy, Meteorologist in charge of the Colaba Observatory in South Afghanistan about 150 miles northwest of Quetta.

Questioned as to the severity of the shock, Dr. Roy said, "judging from the record the shock appears to be very damaging near its origin. It is not quite so severe as the Bihar earthquake of last year but still it appears to have been most serious."—A.P.

TIRADE AGAINST CONGRESS MUST STOP

Rajen Babu's Reply To Critics

WORK BEFORE CRITICISING PROGRAMME, SAYS HE

A mammoth public meeting was addressed by Babu Rajendra Prasad, President of the Indian National Congress, on Friday evening at the Azad Maidan, when he made a spirited speech for nearly an hour expounding the Congress policy and urging the supreme need of following the Congress lead without creating unnecessary dissensions in the ranks.

More than ten thousand people—men and women—assembled on the Azad Maidan from an early hour in the evening to hear the President of the greatest Political Organisation in the country.

"No useful purpose would be served if a certain section of Congressmen carried on a campaign of criticism against the Congress, its programme, and its leaders. Whatever other impressions such criticisms might create, I am sure that it would certainly create an impression that the Congress was losing strength. Such criticisms tended towards creating confusion in the minds of Congress workers, who may lose confidence in the Congress work."

Thus said Rajen Babu in appealing to different groups in the Congress fold not to give public expression of their differences with the Congress and its programmes, until they had fully discussed the question.

Among those who were present on the platform, that had been specially erected, were Acharya Kriplani, Messrs K. F. Nariman, Nagindas Master, Surji Vallabhdas, Mathradas Tricamji, S. K. Patil, Ganpathishanker Desai, Sunderdas Morarji, Jethmal Narandas, Sirajuddin Vasi, Mrs. Vasi, Mrs. Perin Captain and others.

Loud speakers had been installed, and the arrangements were in charge of the volunteers of the Gandhi Seva Sena and the Bombay National Guards.

WELCOMING MAYOR OF INDIA.

Mr. K. F. Nariman, who presided, in the course of his speech said, "I am extremely glad to welcome Babu Rajendra Prasad, the President of the Indian National Congress, on behalf of the Citizens of Bombay, and on behalf of the Bombay Provincial Congress Committee. I welcome him not only as President of the B. P. C. C. but as Mayor of Bombay. It is a question of the Mayor of Bombay welcoming the Mayor of India.

Bombay has a soft corner for Babu Rajendra Prasad. He is loved by the people. This was evident from the grand reception that was accorded to him by the people of Bombay on his last visit to Bombay, when he arrived as the President of the Bombay Session of the Indian National Congress.

Next to Mahatma Gandhi, Rajen Babu is the highest respected person. This was witnessed at the Victoria Terminus this morning, when Rajen Babu arrived. People who had gathered in their thousands at the Station literally went mad for his "Darshan". Since his arrival in the city, Babuji has been very busy giving interviews and receiving deputations.

"Rajen Babu had fulfilled all the expectations that the people had of him, even within the last few days after the Congress. In spite of bad health, he has undertaken a nationwide tour as President of the Indian National Congress, with a view to strengthen the Congress. He has not only been prominent in political work; but his work during the Earthquake period in Bihar has been a matter of praise from all quarters. Not only Congressmen, but enemies of the Congress had appreciated the good work that was done by Babu Rajen Prasad for giving relief to the distressed Biharis. I once again welcome him on behalf of the city and the B P C.C."

Allegations Against Fire Brigade

Lives Could Have Been Saved If Brigade Men Had Acted Promptly, Says Counsel On Behalf Of Victims' Relatives

Culpable negligence of the Fire Brigade in failing to heed to entreaties of a Muslim crowd to save the lives of the inmates of a burning building was alleged at the inquest of the Mahomed Ali Road fire victims on Friday.

Mr. Khairaz, instructed by Mr. E. J. Biem, representing the relatives stated that his witnesses would not be able to throw any light upon the causes which led to the deaths of the seven persons.

They would say, however, that were it not for the tardy manner in which the officers of the Fire Brigade officers acted, the lives of the seven persons would have been saved.

At the end of the evidence of Mr. Aboobaker Haji Mahomed, however, counsel told the Coroner that he would have to reconsider the position.

A lady doctor deposed that in her opinion death was due to suffocation and burns.

Although the clothes worn by the victims were not burnt, the bodies were partially scorched and the skin had been peeled off the bodies.

Resident's Evidence

The first witness to be examined by the City Coroner was Mohamed Ayub Darbar, a resident on the second floor of the building which was gutted down by fire on the night of May 17.

At about 9-30 p.m. he heard the report of an explosion and on opening his door he saw flames shooting up to the third floor.

He immediately removed his wife and child from the room and sent them down the ladders placed against the wall by some of the spectators.

He saw Ibrahim son of Joosub Noormahomad residing on the third floor leap out of the building. The Brigades had arrived by their and he told the officer that there were several persons on the third floor and they should be rescued.

Later he saw the officers bringing down seven bodies, they were all members of the family of Joosub.

Serious Allegations

At this stage Mr. Khairaz stated that he wished to cross-examine the witness as his instructions were that the Fire Brigade officers had been negligent and that if they had acted with promptitude these lives would have been saved.

In view of the allegation that would be made against the Fire Brigade Officers he requested the Coroner to ask Mr. Coombs, the Chief officer of the Fire Brigade, who was present in Court to leave the room as he would have later to cross-examine Mr. Coombs exhaustively on the incidents that happened on that night. Mr. Coombs then left the room.

One Hour After

In answer to Mr. Khairaz witness stated that after he had requested the officer to rescue the inmates of the third floor the telescopic ladder was brought in line with the third floor. This was done one hour after he had heard the loud report of an explosion.

When the ladder was placed to the third floor, witness said, the fire had by then been almost extinguished.

Mr. Aboobakar Haji Ahmed, the next witness stated that on hearing a loud report of explosion at about 9-30 p.m. on the night of May 17, he saw a fire in a building on Mahomed Ali Road.

He went to a fire alarm stand and found that the Brigade had already been summoned. He then went to the Pydownie Police station and returned in one of the Brigades repairing to the scene.

Alleged Abuse

On arrival he heard people saying that the residents of the first second floor had been rescued and that the inmates of the third floor were still in the burning building.

Two men came to witness and complained that the Fire Brigade men had abused them when they had asked them to go on the third floor. Witness then went to sub-Inspector Hakim and along with him saw the Fire Brigade Officer.

The officer was informed and after the lapse of about half an hour the bodies of seven persons were brought down.

Coroner: Have you any complaint to make against the officers of the Fire Brigade?

Witness: I am told by the people that if the Fire Brigade men had listened to them and gone up to the third floor from the Memonwada side of the building they would have saved their lives. There was no fire on the building facing the Memonwada side. There was a fire engine posted on that side.

Mr. Khairaz: How long after you spoke to the Fire Brigade officer was the telescopic ladder extended to the third floor?—The ladder was up but it was not touching the floor of the third floor when I spoke to the officer.

Mr. Khairaz: Did you see the fire brigade men go up into the third floor?—No.

Dr. Mrs. Sherbanoo Padam Hiraji the next witness stated she had a dispensary on the first floor. On the night of the fire she was in her dispensary.

She saw the bodies of the victims of the tragedy brought down about 45 minutes after the brigades arrived on the scene.

She was called to render aid to a child who was showing signs of life but when she went to the place she found the child dead.

All the persons who were dead had their tongues protruding and she also noticed that their bodies had been scorched and the skins peeled off their body, she was of opinion that death was due to suffocation and burns.

At this stage the inquiry was adjourned to Wednesday.

CYCLE THEFTS IN CITY

Suspect Remanded To Custody Till June 13: 3 Stolen Cycles Recovered

BOMBAY, Friday.

Shamsoo Bala, who was arrested by the DeLisle Road police for alleged theft of cycles on May 20, was produced to-day before Mr. Coelho, Presidency Magistrate, Dadar.

During the course of enquiries by the police, it transpired that the accused had disposed off several cycles which were brought to him from time to time by one Ibrahim Ismail who is at present in the custody of the Cantonment Magistrate, Poona, for a similar offence. So far 3 cycles have been recovered and many more are expected to be recovered.

The accused has been remanded to custody till June 13, pending further enquiries.

An application to bring down Ismail to Bombay from Poona was made on 28th. Bail has been refused to the accused.

NOSE AND LIPS CUT OFF

Alleged Culprit Who Made Good His Escape Arrested

The story was recalled to-day before Mr. I. S. Haji, Presidency Magistrate, Mazagaon Court, of the incident in which the nose and lips of Mariem Begum were cut off on the 26th April, when the Police applied for the remand of Bashir Ahmed Baludi, the alleged culprit, who was arrested yesterday in the J. J. Hospital where he had been to pay a visit to the complainant.

It is stated that on the 26th April, the accused and the complainant went together for a drive in a victoria, with a purdah tied round it, and when came to Kamatipura, the complainant insisted on leaving him, which seems to have very much irritated the accused. He is then alleged to have cut off her nose and lips with a knife. Before the woman could raise an alarm, the accused is said to have made good his escape.

As the driver of the victoria could not be found, and the complainant was lying in the hospital, it was not possible for the Police to trace the culprit till yesterday when he was arrested under the circumstances narrated above.

The Magistrate ordered the accused to be bailed out till the 13th June.

RAY STOPS SLEEP-WALKERS

Sleep-Walkers throughout the world may be cured by a tiny ray of light.

It has been found that a ribbon of light stretched across the bed of a sleeper will provide certain protection from danger and a complete cure.

The light ray is thrown from a projector on to photo-electric cells as a means of alarming a sleep-walker's relatives and friends as soon as the patient has risen from the bed.

When the ray of light is broken, bells ring in any part of the house desired, and the sleep-walker can be led back to bed before reaching danger and without being wakened.

The King gave audience to the Maharaja of Baroda.

"THE RICHEST GIRL ..... IN THE WORLD"
At The Wellington

Stirring romance in the golden palaces of the ultra-rich, some delightfully sugar-coated philosophy and a dash of sparkling comedy are skillfully mixed in "The Richest Girl in the World", a breezy entertainment at the Wellington this week.

The dashing, modern, title character—"The Richest Girl in the World"—is in the capable hands of Miriam Hopkins, still the lovely blonde star. Her light comedy touches are splendid, her dramatic moods are fascinating, and her beauty is nothing short of bewitching. No wonder she dazzles the handsome Joel McCrea, who plays the male lead! Other superb performances are those by Fay Wray, Henry Stephenson and Reginald Denny.

The story of "The Richest Girl in the World" deals with money's inability to buy true love, with Miriam as the portagonist. Realizing that her uncounted millions form an impassable barrier between her and love, she exchanges identities with her secretary-companion and stars to capture McCrea. Miriam's charm attracts McCrea, but so does her secretary's alleged wealth.

When McCrea proposes to the bogus "richest girl in the world" and is accepted, surprising complications arise, leading to a highly diverting denouement. All makes one of the more brilliant entertainments the silver screen is offering this season.

"The Richest Girl in the World" naturally moves against sumptuous backgrounds, such as a Long Island mansion, an Adirondack lodge, a trans-Atlantic steamer, a fashionable cafe and a fashionable salon. Fashions run rampant, too, with enough new styles worn by Miss Hopkins and Miss Wray to gladden the heart of any clothes-minded feminine movie-goer.

"The Richest Girl in the World" was expertly directed by William A. Seiter. This RKO-Radio Picture is from Norman Krasna's original story.

"CHANDRASENA"

The Krishna Talkies will be showing from to-day the 'Marathi' version of "Chandrasena," the Hindi edition of which was shown to crowded houses for the last 7 weeks at the local Minerva Talkies.

Chandrasena is a Prabhat Picture, featuring Nalini Tarkhad, Sureshbabu, Rajanee, Shanta, Mane, Velkar and Buwasaheb.

WALLACE BEERY APPEARS IN HIS GREATEST FILM
At The Regal

"West Point of the Air" which opens to-day at the Regal Theatre, fulfils two purposes excellently. It is a splendid, warm, human vehicle for Wallace Beery, whose popularity was amply attested by an enthusiastic crowds. Secondly, a strong dramatic story is played out against a new background, a background which few Americans know anything about, a background of utmost importance, to the future of the United States .....the huge air college at Randolph Field, Texas.

Beery as a grizzled old aviation sergeant, bridges the gap between the army air days of rickety "crates" or "Flying coffins" as they were playfully called, to the ultra-efficient air arm of to-day. He does even better than his usual job. This extra margin of excellence is undoubtedly due to the fact that aviation is Beery's great hobby. He is the most experienced pilot in acting circles, the only actor, in fact, who holds a transport pilot's licence. Great in that flying picture of the Navy, "Hell Divers," Beery is even greater in "West Point of Air". The reason undoubtedly lies in the story; the great interest that revolves around this old veteran and his somewhat swell-headed aviator son Robert Young. Two girls, Maureen O'Sullivan and Rossalind Russell, are mixed up in the plot melange, and both do pleasant jobs, as does young. Lewis Stone is a highly capable General Carter and James Gleason turns in a splendid comedy performance. It is the atmosphere of Randolph Field, however, that provides the most special kick of the picture. The extent of this place, the startling manoeuvres of the army ships ..... all of these give a colour and a wallop to the film possessed by few photoplays. And dominating the whole scene is "Butch" of "The Big House" and "Long John Silver" of "Treasur Island," now transformed into lovable "Big Mike"' The picture is undoubtedly one of Berry's greatest.

COLLEGE GIRL

This is a picture quite deviating from all Ranjit Pictures. It has not only a novel theme but also all the Ranjit artistes are presented in a hitherto unfamiliar of roles. Kumari Madhuri gives the impression of a real college girl, as Miss Urmila, Kumari Sheila Devi represents quite the opposite extreme. She is Westerner.

Raja Sandow will play the chief role against Kumari Madhuri.

Ghori and Charlie would also be featured. Ram Apte is also there.

"LES MISERABLES"
First French Film Records Wide Response At Pathe

The second part of "Les Miserables" will be shown from tonight at PATHE. No one should miss seeing what is undoubtedly, the best picture of the year.' In the first part the story ended where Jean Valjean aludes the police in search of Cosette the little daughter of Fantine. The second part picks up the story from that point and you will see some the finest acting by little Gaby Toriquest as Cosette. It's not often one has the pleasure of seeing a child of eight with such a fine sense of acting.

Jean Valjean, played by the great Harry Baur, is now living in Paris as Mons. Fauchelevant with Cosette grown up. Cosette falls in love with Marius an aristocrat but a staunch republican. Marius' uncle "Gillenormand" is played by another great French actor Max Dearly whose characterization of an eccentric Royalist is a piece of very fine acting.

Marius along with other Students is in the thick of a revolution and Jean Valjean promises Cosette to go and fetch him. Here his old enemy Javert, the Inspector of Police, once again crosses his path. Javert is captured by the Students and handed over to Jean Valjean, who instead of shooting him lets him go. Javert still imbibed with a high sense of duty follows Jean who rescues Marius through the sewers of Parsi, only to meet Javert at the end who puts Jean Valjean under arrest. Chas. Vanel who plays the part of Javert in a restrained and dignified manner here shows his ability as an actor because it is not an easy task to be hard hearted by training and tradition and at the same time bring out that spot of human kindness which all of us have.

Harry Baur in his last conflict with Society rises to great heights again and conclusively proves that he is one of the finest actors the screen has given to us. His confession to Cosette and Marius that he is not Fauchelevant but Jean Valjean will bring a tear to everyone's eye and even in his death he remains stately and dignified.

Honnegers unobtrusive music and the artistic photography are as good as in the first part, and one feels sorry that this splendid picture cannot be continued for more than a week. Perhaps Bombay will have an opportunity of seeing both parts together at some future date. If Pathe can bring some more films like this the future of French films in India is assured.

"LES MISERABLES"
Must Be Shown Again

"SWEET MUSIC" DELIGHTS AUDIENCE
At The Capitol

Again Warner Bros. have turned out a hit in their latest musical, a type of picture for which that company is famous. "But 'Sweet Music' tops everything they have done before. The picture has a well-knit plot, based on an original story by Jerry Wald. There is a fascinating romance with dramatic moments, plenty of hilarious comedy clever dancing) gorgeous spectacles and fine dancing. The story concerns a young college boy who has organized his own band and who croons his way to a tremendous success in de luxe night clubs and on the radio. He falls in love with a beautiful dancing girl and is instrumental in promoting her to success, altough she is led to believe by her manager that the band leader is jealous of her and is trying to belittle her act. Vallee has appeared in pictures before, but never has he been given the opportunity to portray a real role, as well as sing, that is furnished him in "Sweet Music." In this picture he proves himself a consummate actor as well as crooner, and if given future film roles as strong as this one, he bids fair to become a top notch picture star as well as the world's most famous radio singer. A new Ann Dvorak is discovered in the picture. Since she made a distinct hit in "Scarface," with Paul Muni, she has been cast only in dramatic roles. Hollywood seemingly forgotten that she first achieved success as a dancer and singer. She gives a fine performance in the romantic role opposite Vallee, but she also demonstrates over again her talent as a dancer in which she leads a chorus of forty dancing beauties. She also has an unusually pleasing voice, singing with Vallee in three of his seven song hits. Helen Morgan, noted torch singer, who rose to national fame in "Show Boat" adds to the musical entertainment with two catchy songs. She also gives a finished performance in her dramatic role in which she plays herself. Rudy Vallee's Connecticut Yankees appear in person with their red-hot rhythm, as also does the Frank and Milt Britton Orchestra in their comical stunts of smashing musical instruments, while they make merry music. Scores of beautiful girls appear in the dances and ensembles which were staged by Bobby Connolly. For novelty and spectacle these have not been surpassed. There is an unusually large cast of clever players in support of Vallee, Ned Sparks, the dead pan comedian, providing hilarious laughter as the four-flushing agent for Miss Dvorak, Allen Jenkins, as a publicity man for Vallee, who gets all the press notices for himself instead of for his boss, deserves

ORDERS RESERVED IN NARIMAN CASE

Prosecution Quotes Patent Agents' Trial & House Of Lords Award

Arguments in the case in which Mr. K. F. Nariman, Mayor of Bombay, is charged for failing to renew the registration certificate of his motor car, were concluded on Friday before Mr. D. N. D. Khandalavala Presidency Magistrate, Esplanade Police Court.

Mr. S. G. Velinker, on behalf of the Crown resuming his address yesterday stated that the rules made under the Motor Vehicle Act were part and parcel of the Act itself. The Governor-General-in-Council had sanctioned the Motor Vehicle Act.

The defence contention that the rules were made merely for the working of the Act and all monies recovered under the rule making powers were to be utilised only and strictly for the department was not correct. Every year 2,500 cases relating to breaches of the Motor Vehicle Act were instituted before the stipendiary Magistrates in the City. The time occupied by the seven Magistrates in deciding these cases cost money which was paid by the Provincial Government in the shape of salaries. All these units combined with the work of the officers in the Motor Vehicle Department joined together to work the Act.

BRITISH CASE QUOTED.

Mr. Velinker then quoted an British case which he maintained was on all fours with the present case. In that case a Patent Agent refused to pay the renewal fees for registration as he maintained that the levy was iniquitous and illegal.

The lower court held against the Patent Agent but the Appellate Court reversed the order of the Lower Court and accepted the contentions of the Patent Agent that the revenue collected from the renewal fees did not go to maintain the department.

The question was however decided by the highest tribunal the House of Lords in favour of the plaintiffs. They had decided that the rules formed part of the Act and as such the levy was legal and constitutional.

Mr. Velinker then concluded his arguments and the Magistrate reserved orders.

THEFT CASES IN NAGPADA

Man Said To Have Broken Into Room Remanded To Custody

BOMBAY, Friday.

Vithal Odaji was remanded into police custody till the 11th June by the Presidency Magistrate, Mazagaon Court to-day. In their application the police stated that on the 30th May Mr. Smith of Morland Road locked up his place at 7 a.m. and went to office. In the evening, his neighbours were surprised to see his room closed from inside. Suspecting something, they pushed open the door when they were surprised to find the accused inside. He tried to bolt away but was arrested on the first floor by a person residing there.

As there are several undetected cases of the same nature reported at the Nagpada police station, the police applied for his remand till the 11th June in order to complete their enquiries in these cases. The bail was granted.

"ENTIRELY FALSE CHARGE"

Solicitor And Others Acquitted In Cheating Case

Grave allegations of cheating and criminal conspiracy to dishonestly induce delivery of property valued at over a lakh of rupees were made by Abdul Kadar Hassanalli, a Bohra merchant, against (1) Ebrahim Tyeballi Kachwalla, (2) Abdulhussein Tyeballi, (3) Gulamhussein Thaverbai and (4) Natverlal Bhagwanlal Desai, a Solicitor, before Sir Hormuzdiar P. Dastur, Chief Presidency Magistrate, Bombay in March 1934.

"CHARGE ENTIRELY FALSE."

The Magistrate in passing orders on Friday characterised the charge as entirely false and discharged all the accused.

Mr. Kanuga on behalf of Mr. Natverlal Desai, Solicitor, requested the Court to mark its displeasure by ordering the complainant to pay a fine. The Magistrate observed that the defence had not led evidence in the matter or else he would have acceded to Counsel's request. In case Mr. Natverlal intended to proceed against the complainant, he would accord his sanction. As far as Mr. Natverlal was concerned, the allegations were absolutely false.

Mr. S. G. Velinkar with Mr. C. N. Kanuga, Mr. Kantilal Thakore and Mr. Franklin D'Souza defended the accused.

It is understood that the accused is likely to prefer an appeal.

ALLEGED GAMBLING IN CARDS

Virjivandas Dhanji and eleven others, who were arrested by the Palton Road Police on Thursday night when they carried out a raid on an alleged gambling den, were placed before the Presidency Magistrate, Esplanade Court on Friday and released on bail.

The police alleged that the accused were gambling in cards for stakes.

SUICIDE OF CLERK'S WIFE SUSPECTED

The death of her only son some six months ago is reported to be the motive for the suspected suicide of Gangabai Navnitlal (23) wife of a clerk in the employ of Sir Purushottamdas Thakurdas.

It is alleged that on Friday when the husband of the deceased returned home as usual for his mid-day meal he found the door closed. On forcing it open he found the charred remains of his wife in the kitchen. There was an empty bottle of kerosene oil by her side.

The matter was reported to the police who removed the body to the morgue and took charge of the inquiries.

Library Facilities In The City

It will be generally admitted that the library facilities that are at present available to the public in the city are sadly inadequate. It would be unreasonable to expect the University Library to cater for the needs of the general public, because the library exists primarily for the use of under-graduates, though the Library authorities seem to take the view that it is meant almost exclusively for college students. The Petit Library nowa-days is inaccessible to all but the rich. The Peoples' Free Reading Room and Library has three or four reading rooms, there is no subscription and books are allowed to be taken home against deposit of a certain amount. But, unfortunately, it does not contain some of the latest books whether on politics, economics or in fiction. As regards the other libraries, (and they are not many) two criticisms have to be made against them. Firstly, they charge a monthly subscription of two rupees, an amount which must be considered excessive in these days of economic depression. A more serious criticism is that they supply only novels and other kinds of light literature. Now there are many persons who do not like to spend all their leisure hours in reading novels alone. They want to take an intelligent interest in the political and economic questions of the day. As things stand now, there are no libraries which can provide them with books treating of current political and economic problems in a non-technical way. What is wanted is more and better libraries with lower subscriptions and which contain something more than mere "shilling shockers" and "penny dreadfuls".

"The Bombay Life"

The annual report of the Bombay Life Assurance Company, Limited, for the year 1934, shows steady progress in business and general improvement in the position of the company. 5,589 policies were accepted assuring a sum of Rs. 1,04,33,750 yielding an annual premium income of Rs. 5,74,634. One satisfactory feature during the last year was the low expense ratio maintained by the company in spite of expanding business and greater expenses involved thereby. It is particularly gratifying to note that the company has undertaken a new venture in the shape of the Fire and General Insurance Company of which it has purchased five thousand shares of Rs. 100 each. The scope for fire insurance business in India is vast; and with the influence and resources of a company like the Bombay Life Assurance Company, the new Fire and General Insurance Company is sure to make sound progress.

BOMBAY: SATURDAY, JUNE 1, 1935

STAND BY THE CONGRESS

The reception that was accorded to Babu Rajendra Prasad on Friday by the citizens of Bombay was one that the most eminent officials in the country might envy. With his characteristic modesty he attributed it solely to the fact of his being the Congress President. But in doing so he stated but a partial truth, the whole truth being that the people recognise in him a worthy President of a worthy institution and a most devoted and disinterested servant of his motherland. It is equally true that the people recognise in the Congress the greatest institution that safeguards all their national interests. Unfortunately, however, some misguided Congressmen and the well-known enemies of the Congress are consciously or unconsciously undermining peoples' loyalty to that body by making it appear that it is no longer carrying on the struggle for Swaraj and that it is steadily drifting towards co-operation with Government. It was for this reason that Rajen Babu devoted special attention, in his speech at the public meeting on the Azad Maidan, to removing such gross misconception about the Congress.

Quiet Organisation

For the simple reason that Congress has suspended the Satyagraha movement, some people jump to the utterly absurd conclusion that it has suspended the Swaraj movement itself. The Congress could not do such a thing even if it would. The fact is, as Rajen Babu has observed on various occasions, there are times in the national movement when quiet undemonstrative work is more important and urgent than anything else; and such a time we are now passing through. The same idea was developed by him at the Azad Maidan meeting when he observed that now was the time for quiet organisation of the Congress itself and of the masses chiefly in the much neglected villages. When the organisation is complete it should be easy for the Congress, with the country at its back, to undertake a more intensive and extensive struggle for Swaraj than is at present possible.

Strengthen The Congress

Unfortunately, however, the term organisation is not clear enough to many, and different people understand it differently. But all reasonable men will agree that an essential condition for any kind of mass organisation is to strengthen the Congress itself, which alone can lead, at any time, an effective mass campaign for Swaraj. And to strengthen the Congress it is necessary that it should have a vast net-work of committees or centres of work or influence in the remotest villages, that men should enlist themselves as active Congress members in their thousands and tens of thousands, and that they should enlist the genuine sympathy and confidence of the masses by doing truly beneficent work for them in one or more items of the comprehensive constructive programme which the Congress has adopted. This is the Congress plan of quiet organisation which Rajen Babu misses no opportunity to commend to the people and the potency of which Government themselves, realise but too well. Not that the Congress programme is incapable of improvement. Indeed, improvement will not be long in coming. But meanwhile those who believe in the efficacy of the programme even as it is cannot do better than devote themselves to it quietly, leaving carping critics severely alone.

Unfair, If True

According to the Lucknow correspondent of the "United Press", the Government of India, after consultation with Provincial Governments, especially the Government of Bengal have finally decided to put a ban on any Report of the Committee appointed by the Assembly Congress Party to investigate and report on the question of repression in Bengal and the condition of the detenus. Strict censorship, we are told, is being kept on the correspondence between members and it has been decided to forfeit the report immediately it is ready. If there is any truth in the report the decision may be in keeping with the general policy of the Bengal Government espcially with their action relating to the publication of news regarding the detenu day. But Government thereby are inviting a serious charge against themselves.

They are said to view this move on the part of the Congress with disfavour because, so it is alleged, "the Committee is collecting deliberately one-sided information which is calculated to bring the Government of India into contempt not only in this country but in the eyes of other nations of the world. This would be amusing were it not that it adds to the unfortunate irony of the situation. Government could accuse the Committee of collecting one-sided information deliberately if they had offered to supply the other side of the case. So far from offering it to the public or the Committee, Government have resolutely kept it to themselves, so completely that even those who are under detention are not aware of the details of their crime. As to the reaction of the report of the Committee on the country and the world, we wonder if the Government of India ever thought of this country and other nations of the world in consenting to the promulgation of all the emergency laws and ordinances that are in force in Bengal and to the system of detaining, for indefinite periods, suspects in prison without trial in public and without giving ample opportunities to the suspect to vindicate himself or herself.

Andaman Affairs

The reasons adduced by Government for refusing permission to Mr. Mohanlal Saxena to visit the Andamans are hardly convincing. Their observation that the administration of the settlement is the responsibility of the executive is trite and beside the point. Mr. Saxena's sole intention was after all to make a fist-hand study of the condition of prisoners, and we do not suppose his investigations would have in any way encroached upon the responsibility of the executive. If anything, Mr. Saxena's visit would have been indirectly helpful to the authorities by allaying the suspicions that undoubtedly exist in the minds of the public regarding affairs in Port Blair. Only recently Dewan Bahadur Narayanswamy Chetty was granted permission to visit the convict settlement and the present refusal thus appears all the more unfair by contrast. It is understood that Government are considering the question of appointing a board of non-official visitors—probably as a sop. Details of the personnel will be awaited with interest. We cannot, however, but endorse Mr. Saxena's view that members of the legislature should be always allowed facilities to see the institutions, unless reasons of State demand otherwise. Such a lifting of the veil will be of advantage to the prisoners, to the public and to Government themselves.

IN THE LAW COURTS

A Hardy Annual

(By N. H. P.)

In India, the question of the timing and duration of the Long Vacation has come to become a Hardy Annual. A writer in the Calcutta Law Journal indignantly states that "The Calcutta High Court is the 'home of lost causes' and it is clinging to the last of its lost causes, to wit, the autumn vacation with a pathetic tenacity worthy of a better cause. The long vacation in Calcutta extends over 73 days in September, October and November. The writer points out that the Bombay and Madras High Courts had from their very inception their long vacation in summer instead of in autumn. The Allahabad and Patna High Courts for a long time followed the Calcutta tradition, but even they recently adopted the tradition of Bombay. Calcutta, however still stands out in splendid isolation.

The writer states that in those far off days when there were no hill stations to speak of, and the Judges, mostly or all Europeans wanted to go "Home," there might have been a justification for the long holding. But, hill stations and sea side resorts are now plentiful all over India and most of the Judges themselves would welcome the convention of ordinarily spending the vacation there.

The necessity of a vacation during the hot months, is however generally conceded in India. It is said that the efficiency of both Judge and advocate would be somewhat low while the temperature rises, notwithstanding modern conveniences. The question has, however, to be judged solely from the point of view of the public convenience.

Sentimental Exhortation.

In a criminal trial before Lord Hewart, in which one P. C. Anderson stood charged with murdering his sweetheart, Counsel for the defence in the course of his address to the jury said:

"If you find the verdict that I am inviting you to find, then, once more he will see the sunshine and hear the lark sing outside. That will be the result of your verdict."

Lord Hewart, summing up, said:—

"It seems to be suggested that unless you come to a certain conclusion to some extent in the prisoner's favour, you were interfering, if I followed it, with the solar system and in breaking off the singing of the birds.

"The solar system is much more likely to be interfered with and the song of birds much more likely to cease, if juries upon a sentimental exhortation fail to do their duty.

Legal Research In London.

Speaking at the Annual Dinner of the London Law Society, Lord Macmillan said that they were about to make London a great University city as well as a city of finance and government. He hoped that it would be possible to have an institute of legal research. He wanted to see a post graduate study of the law started in London in association with the University of London. It was preposterous, he said, to think of the law as dry as dust, for there was no study more attractive. It would bring into closer relations the academical and practising side of the law.

Judge Sorry For Motorist.

"I am extremely sorry for the plaintiff in this case. I think he has been very badly treated—shockingly badly treated." Mr. Justice Swift made this comment in dismissing an action in which a motorist claimed that an insurance company had wrongly repudiated a policy of third party insurance. The Motorist, H. M. Mackay claimed from an Insurance Company £830 and costs, the amount of a judgment against him in respect of an accident which, he alleged, was covered by a policy of third party insurance. The defendants claimed that they were entitled to repudiate the policy because of concealment of facts in the answers to certain questions on the proposal form. Mackay, it was alleged had answered "No" to a question asking if any special condition had been imposed upon him by any other company, when, in fact, he had been told by another company, some years ago, when a minor, that he must bear the first £2-10 sh. of any claim himself. The plaintiff contended that that was a condition imposed by that company on all minors taking out the first policy and was not a special condition.

VILLAGE INDUSTRIES ASSOCIATION

Its Aims And Objects

By B. PATTABHISITARAMAYYA I

One of the misfortunes of our civilization is that we are at times called upon to define axioms. They are really truths which are taken for granted, which are only to be sensed, not discussed much less defined. And when we discuss or define, we must discourse upon elementary points; and this is the excuse for the common places set forth in this communication.

It follows from the concept of Indian Nationalism that in the wake of political independence, or even in advance of it, there should be an economic independence,—i.e., complete self-sufficiency in each country. Not that the amenities of give and take, which prevail among men are wrong amongst the nations of the world, be that, based, as they are, upon huge and complete problems like the relativity of prices, which themselves are dependent not only upon the natural conditions of soil and climate, but upon the artificial conditions of mass production and of currency and exchange, they introduce adventitious forces into the normal life of the country and destroy the even tenor of the natural life of the people thereof.

Evils Of "Modern" Culture

Every civilized man wears cloth —cotton, linen, silk or wool. If one country however, offers to clothe the people of another, the latter would thereby not only lose their skill in handicrafts, but become the bond-slaves of the country that supplies. The index of civilization is really the arts and crafts of the people who largely live in its villages. If you gain Swaraj and lose the cunning of your fingers, you gain the world, but lose your soul.

Soul, Art, Beauty are perhaps abstract terms. They mean no concrete ideas to the man in the street. Really they are much better understood by the unlettered men than by those who are sophisticated by the culture of the modern day. The West with its onslaughts of machinery and competition upon the pristine ideals of Eastern simplicity, beauty, purity and spirituality has made 'Education' and 'Culture' terms synonymous with struggle and survival of the fittest with money and power, with force and competition, and such other things. The country has cast off its ancient idols and begun to worship strange gods, we have been taught to use in our daily life foreign articles, and imbibe every moment foreign ideals.

Educated Indian's Home

Nationalism under the conditions has become a mockery. Before we say so, let us prove our case. Go to an educated Indian's home and take room after room of his house, child after child of his family, his furniture, conveyances, and the very materials of his buildings and say whether the tastes exhibited therein, the articles employed and the ideals pursued are such as are calculated to conserve and promote India's economic aesthetic or ethical well-being.

From morning to evening we use foreign articles. The two hair brushes with which we dress our hair, our tooth brushes and shaving brushes, our nail brushes and boot brushes and bathing brushes are all foreign. Our soaps and snows, our cosmetics and vaselines, our face powders and toilets are likewise foreign. Our toys and dolls are English, German or Japanese. Our socks and garters, our ties and clips, our buttons and links, our belts and braces, sometimes our collars and cuffs and our boots and hats are imported. That is not all; our cups and saucers, our spoons and forks, our crockery and cutlery—all hail from abroad. These with French coffee, Australian milk, Reading biscuits, Java sugar, Cheshire salt, and English jams make our Chota Hazri prepared on Primus stoves wholly foreign except for the water inevitably used. Not a few use Vichy and Karlsbad for quenching common thirst, while to quench the uncommon thirst we use imported wines and whiskies, cocktails and champagne, Beers and Brandies. In the homes we use Dietz's lamps and Patromax lights, Enamel ware and Brasso metal polish. On the play grounds we use Hockey sticks, Tennis racquets and cricket and Badminton bats. In clubs we use Billiard and Bagatetransle cues, Uigpong balls and U. S. A. cards. In our office rooms we use stationery including letter paper and envelopes, pens and pencils, blotters and inkstands, paper rolls, pins and clips, nibs and pipettes of foreign origin. Our spectacles, tapes and weighing machines come from abroad. Our children's perambulators and pushpushes are likewise foreign. Our Venesta chairs are made of Austrian Bentwood or Czechoslovakian compressed plank, our mirror frames, and punka pulleys are from outside our country.

Nation Or Foreign Countries' Market?

In house-building we use Italian marbles and Tiles and imported porcelain chips for flooring, Portland Cement and Canadian wainscoting, Hull's distempers and German paints for walls, Ruberoid sheets and asbestos tiles for roofing, let alone the wire nails, screws, hinges, bars, bolts, and handles and locks,—all imported. And what about furniture? Door curtains and window screens, Queen Anne's chairs and bed room sofas and Rosewood shelves wall mirrors and corner brackets, Tea Poys walking sticks and umbrellas, hat rackets, pictures and paintings, Tables chairs, pigeon holes, fountain pens and inks, Harmoniums, gramophones and records, violins, orchestras, pianoes, home cinemas and radios, clocks and wall decorations—all come from abroad. Need we mention in particular cloth and eatables, medicines and Babyfoods, Crevionette, marino, Blazers and Broadcloth, Tonics and Injections, drugs and patents, condensed milks and malted milks, Butter, cheese, preserved fruit, sardines and salted fish, ox's tongues, and sweetened ginger, honey,—Oh, one has only to go to the bazaar and note how foreign countries have made markets of a whole nation in the East. Ribbons—made of silk, cotton and Rubber, Hair pins, brooches, combs, frills and fringes,—all imported, these are no less popular in our homes. Tools

Frankly Speaking

JAPAN'S THREAT

It was clear from the Tokyo report about a clash the other day between Japanese troops and Chinese irregulars, that the matter would not end there. The relations between China and Japan are again passing through the usual stages which culminate in China losing a part of her territory to Japan. Complaints about bandits and irregulars are followed by 'casual' clashes which in their turn compel a stern warning by Japan, leading to the final and culminating stage where Japan is obliged—most reluctantly—to take charge of the troubled territory all, of course, in the interest of peace, prosperity and the people. It is, therefore, not surprising that Japan, tired of the imaginary mole in China's eyes, that is to say, "Chinese insincerity, double-dealing and failure strictly to observe the terms of the Tangku truce" should openly declare Peking as her objective. In fact it was overdue. Japan has her eyes on China and is bent on extending sovereign influence over the country steadily if gradually. Meanwhile the plight of a literally helpless China is pitiable. And China is a member of the League of Nations which is an illuminating commentary on its sense of obligations.

GERMANY AND BRITISH FINANCE

That wars and war scares can be traced in their origin to Big Business and High Finance, particularly to the manufacturers of arms has always been—and with uncontrovertible reason—the contention of eminent internationalists, let alone the so-called fanatical pacifists. That contention is proved in a rather sensationally striking manner by disclosures made by London's leading financial journal, the "Financial News". If its report is true, German aerial armament, which has been the occasion for the display in Britain, of so much feeling of alarm and patriotism, is being financed from London itself; and even at the present moment the Bank of England is arranging to furnish the Reichsbank with a huge credit. And now that Germany has rearmed so formidably, air manufacturers in Britain are enjoying the happiness of being overwhelmed with orders from their own country. It is a pity the Arms Enquiry Committee which has been appointed by the British Government has been granted considerably restricted terms of reference inspite of demands to the contrary even by men like Viscount Cecil. And it is a thousand pities that the Bank of England, so closely connected with the Treasury and the British Government, should be helping Germany to rearm.

A LAUDABLE SCHEME

Among other "blessings" of the British raj has been the introduction,—or rather infliction—of the Western style of architecture. Public buildings, built by official architects have necessarily followed the English conceptions. And thus we have the spectacle in Indian cities of buildings that are either cheap imitations of West or ridiculous mixtures of all known styles of architecture. It is, therefore, with great pleasure that we welcome the proposal for the establishment of a school of Indian Architecture in Calcutta. The object as stated is to "save future civic edifices from the present glaring anomaly of foreign or mixed motifs and reviving in some measure some of India's glories." The scheme is undoubtedly a laudable one and eminently deserves the support of every section of the people. It is good to note that messages of encouragement have been received from the Secretary of State, the Viceroy and the Governor of Bengal. Let us hope Government will not stop at verbal expressions of sympathy and will come forward with generous and substantial support.

ARABS IN PALESTINE

The appeal submitted to the British Parliament by the President of the Palestine Arab Party, extracts from which we published the other day, is a notable document. The Arabs seem to be much perturbed by the excessive and ever-increasing immigration of Jews in the Holy Land. Some idea of the increase can be had from the census figures for the decade ending 1931. During this period while Muslims registered an increase of 28.6 p.c. and Christians 25.2, the Jews showed the phenomenal figure of 108.4 p.c. The Jews at this rate will soon become a majority community there. It cannot be denied that the principle of 'economic absorbing power' which was to govern Jew immigration has been more honoured in the breach than in the observance. The appeal again avers that 'the transfer of lands from Arabs to Jews under exceedingly tempting conditions and official economic coercion is progressing at an appallingly rapid pace'. A large number of the Arab rural class have already become landless, and their future is indeed ominous. As the correspondent of the "London Times" graphically observed, the Arabs under the existing policy bid fair to follow the same fate as the Red Indians. The Arabs are, therefore, fully justified in considering this a case of life and death, and they will have the sympathies of the whole world in their appeal for justice.

— PRESS VIEWS —

M. N. Roy

Mr. D. Goonawardhana, organising Secretary of Mr. M. N. Roy Release Committee (Bengal Branch) wanted to have an interview with Mr. Roy and with this end in view he approached the Home Member to the U. P. Government. He was referred to the Superintendent of Jails, U. P. Government, who again, when approached, referred Mr. Goonawardhana to the Superintendent of the Bareilly Central Jail. The latter when written to first promised consideration of the prayer for interview but subsequently refused it without giving any reason. This curt refusa to grant this interview has taken the public by surprise and the more so as Mr. Goonawardhana had given assurance to the authorities that the interview sought for was purely personal and that no political capital was to be made out of it. One indeed fails to see how the authorities gain by refusing such a simple thing as an interview with a prisoner within the precincts of the jail!—"Amrit Bazar Patrika."

Congress And The Offices

Mr. Masani says that unless the Congress Party wanted to be sent out of office after a few days, they will have to enter into compromises with the Governors. If the Congress felt that the best manner of demonstrating the futility of the reforms was to start by being forced out of office after a few days, we do not see how this would in any way militate against the plan of wrecking the constitution. The whole point is in the objective. So long as the Socialists and other Congressmen are agreed on the objective, it does not matter whether the achievement of this objective involves acceptance of offices or not. In any case, the emphasis should be laid on the ideal and the goal, and all means adopted should be tested in that light.—"National Call."

Flandin Collapses After Impassioned Oration

Radical Socialists Decide To Vote Against Government

Plenary Powers Bill Defeated By 353 Votes To 202: Government Resigns

(Special Cable).

PARIS, May 30.

There was a pathetic incident at the conclusion of his speech by M. Flandin, when he staggered from the tribune and was immediately treated by doctors, including his brother, and was taken home.

The Premier in his impassioned oration said, though the principle of the convertibility of notes into gold would be maintained by Government they would not tolerate anonymous gold withdrawals.

He asserted that there were powerful groups organised throughout the country to induce the country to swallow the devaluation as a powerful tonic. Moreover, there were plans of speculators abroad to make milliards of francs.

He said: "Whoever refuses me full powers to-night, and is compelled to give them to another government, within a few days would deal a severe blow to the parliamentary regime and the franc."

As the Chamber was adjourned to enable the groups to meet the ominous news was soon announced that the Radical Socialists had decided to vote against Government.

LATER.

The Plenary powers bill was defeated by 353 votes to 202. Government has resigned.

SOCIALISTS STAND OUT

No Participation in Govt. But Will Support Franc

PARIS, May 31.

Following the defeat and resignation of M. Flandin's Government early this morning, M. Bouisson the Socialist President of the Chamber, agreed to form the Cabinet of National Union in order to be able to take office immediately.

It is understood he will demand from the Chamber plenary powers to defend the franc without further debate. He explained his programme to the leaders of all principle groups in his attempt to win support but the Socialists decided not to participate in a Government of National Union. They however, proclaimed that they believe in the necessity of defending the franc.

The attitude of this group is likely to influence other Socialistic groups and the Government, therefore, will be of the same complexion as M. Flandin's.

Meanwhile M. Herriott has provisionally accepted the invitation to join Government.—Reuter.

APPEAL FOR NATIONAL CABINET

Ex-Finance Minister On Use Of Devaluation Process

(SPECIAL CABLE.)

PARIS, May 31.

One of the notablest speeches of last night of ex-Finance Minister, Paul Reynauds, combining grasp of financial technique and cheerful assurance, demanded the formation of a truly national ministry with full powers Mr. Reynaud treated devaluation as a constructive process and while admitting its drawbacks said that Britain had proved that devaluation need not necessarily raise the cost of living. Belgium had shown that it could be kept within predetermined limits. Sweden found devaluation combined with a balanced budget was the key to prosperity. Devaluation could not be carried out during a financial panic but must precede or accompany the balancing of the budget.

LAST PHASE OF INDIA BILL

Minimum Representation Of Women In Provincial Councils

LONDON, May 30.

The House agreed to Government amendments providing that at least one seat in the Council of State for Madras, Punjab, Bombay, Bengal, United Provinces and Bihar shall be held by women. Also omitting the provision for an electoral college in Assam in view of the constitution of a second chamber there.

Mr. Butler's amendment to the fifth schedule making clear that women are entitled to contest seats in ordinary constituencies additionally to seats reserved for them was also accepted.

Mr. Butler also moved a new table of seats in the Legislative Council, Assam, which provides for a chamber consisting of not more than twenty-two members whereof ten are general seats, six Muslims, two Europeans and three or four nominated by Governor.

Mr. Cocks on behalf of Labourites formally protested against the second chamber for Assam but the amendment was adopted without a division.

Sir Charles Knox proposed to enfranchise the retired members of the Auxiliary Volunteer India Defence Force.

The Duchess of Atholl supported saying this was an appropriate recognition of services.

Mr. Butler agreed to consider this question.

affected. Telegraph communication being cut off, the Telegraph authorities are communicating through wireless and hence details of the damages are difficult to be ascertained. Shocks are reported from Larkana, Shikarpur, Sakkar Ratodero and other centres in Upper Sind. At 3 a.m. the city shook for 30 seconds and people were awakened from their beds and ran out into the open for safety and offered prayers.

SHIKARPUR'S WOE.

A message from Shikkarpur says that shocks were felt at 3 a.m. and people woke from their beds with "Ram Ram" on their lips. The doors trembled and shocks were worse than on the last occasion, namely on 15th May.

BABIES ROLL OVER.

Message from Ratodero says that two shocks were felt at 3-54 a.m. and there were three shocks in succession. People got panick-stricken and passed a restless night out of fear. Birds from their nests were flung out and children rolled over from cradles. In Mirokhan, Larkana District, the shocks lasted 30 seconds at 3-5 a.m. The town rocked and children were hurtled from cots

SUPERINTENDENT'S WIRE.

The Divisional Superintendent. Nerly, Karachi, wires:—"An intercepted message from the Divisional Superintendent, N. W. R. Quetta to the Agent N. W. R., Lahore says "A severe earthquake shock at Quetta occurred at 2-45 a.m. The railway and the civil area and the city were razed to the ground. All railway officers are safe. There were many casualties among the other staff. I have come through by rail motor to Spezand. The track is not badly damaged. The condition from Spezand to Sibi appears to be safe. Additional engineering staff will be necessary to rebuild quarters. The Telegraph Lines Repair Staff is urgently required. The military area and staff quarters are quite safe. The 53 Up arrived at Spezand and military authorities are arranging relief work.

GUARD'S VERSION.

The following is the copy of a message from Guard Carslate at Sibi to the Army Headquarters, Simla, which passed through Sukkur:

A severe earthquake shock resulting in very serious casualties to civilian and R. A. F. personnel has occurred. Extra nurses and medical personnel have been wired for, A. G. G. and Government offices are safe but all bangalows have been destroyed. Relief work is in hand and camps have been formed at the race-course and the Residency grounds. The supplies are at present satisfactory. The railway and the roads to Quetta are not obstructed.—A. P.

NO BOOKING TO QUETTA

SIMLA, May 31.

The first intimation of the havoc was sent by wireless telegram to Simla by the military authorities who are reported to be unaffected. The damage in the City is also reported to be extensive. Many buildings have been razed to ground and many lives are lost.

In panic, the survivors left the City at night and are camping outside. It is impossible yet to form an estimate about the damage caused and lives that have perished. All booking to Quetta and the nearing station is suspended. All telephone and telegraph communications are reported to have been affected.—United Press.

RELIEF TRAIN DESPATCHED

LAHORE, May 31.

A relief train, consisting of three bogeys was despatched this evening from Lahore by the Railway Authorities, for the relief of the Railway Officials which will go direct to Spezand, 16 miles this side of Quetta at fifty miles speed without stopping on the way, save for changing Engine.

Some people, having relatives in Quetta, desired to avail themselves of the relief train, but were not allowed, all booking being closed.—United Press.

FROM KARACHI

KARACHI, May 31.

A relief train, with a dozen doctors, a dozen nurses and an equal number of orderlies with provisions and under the leadership of Major J. McFodder and Captain D. G. McCaully, has left for Quetta this afternoon.

On the receipt of the information it was contemplated to send a party by air but as doubts prevailed regarding the suitability of landing grounds there, the idea was abandoned. Within a few hours of the news of the calamity, doctors and nurses from local dispensaries and civil and military hospitals were hurriedly summoned. Prominent officials including the Commissioner of Sind, the Assistant Commissioner and Dr. Shroff, the Chief Officer of the Municipality, were present when the relief train left.

The train is expected to reach Quetta before noon to-morrow after picking up rescue parties "en route" at Kotri and Sukkur Junctions.

Newspaper offices, telegraph and railway stations were inundated with inquiries from the relatives of those living in Quetta, which was at present thronged with mercantile community, officials and students who were spending summer there.—A.P.

N. W. R. AGENT LEAVES FOR QUETTA

LAHORE, May 31.

It is stated that a Military Officer finding all communications dislocated motored 16 miles to Spezand Station from where he sent a wireless message about the disaster to the higher authorities who intimated Simla and Lahore.

On receipt of this, the Agent's Office placed itself in communication with the nearest railway station to Quetta, but did not receive much detail about Quetta itself.

The agent, North-Western Railway, left by a special train for Quetta early this morning being followed by the Engineering Staff.

A relief train is likely to be organised from Sukkur.

Frantic enquiries are being made from the News Agencies about the disaster, and the fate of friends and relations at Quetta.

The telegraph authorities intimate that all telegrams are subject to serious delay, as all land lines are destroyed. Attempts are being made to maintain communication through wireless which is also handicapped.

Karachi also reports similar experience in communication with Quetta.—United Press.

RAJEN BABU'S APPEAL TO CRITICS

(Continued from page 1.)

course of his spirited speech said:—

"I thank you heartily for the enthusiastic welcome that you, the citizens of Bombay have accorded to me to-day. To-day is not the first time that I witnessed your love and enthusiasm for me. I shall never forget the reception accorded to me when I came to Bombay in October last.

I am a resident of a distant and poor province—Bihar. Wherever I go, I am accorded a right royal reception, and I have been wondering why there has been such enthusiasm and love for me in all the places.

My belief has been strengthened, from what I have seen, that all the reception and exhibition of love towards me is because I happen to be the President of that great Indian Political body, the Indian National Congress.

BIHAR WILL NOT FORGET

I shall not forget what the country did for Bihar, when I appealed for relief for the 'quake-stricken of Bihar. Funds began to pour in from all parts of the country. Not only that but workers came to our aid, which possibly surprised many in the country. After witnessing what had been done for Bihar, I came to the conclusion that it was the direct result of what the Congress had done through service and sacrifice in the last fifty years. It was the result of the political awakening in the country, which was directly due to the Indian National Congress.

SWARAJ FIGHT TO GO ON.

Continuing, Babuji said: "What the Congress has done till now through service, sacrifice, and love, had been done with the main aim of attaining complete independence for the country. I hope that you will keep it alive. I am sure with your effort, the torch of service and sacrifice would be kept always burning.

The main purpose of the tour that I have undertaken has been to put into action the dual programme of the Congress. Many people have been asking, that since the Civil Disobedience Movement has been suspended, whether the fight for Swaraj was over.

How can the fight for Swaraj stop even for a day, if the Civil Disobedience Movement is withdrawn. It cannot be stopped. It will go on till Swaraj is won. It depends on your efforts. The power of the Indian National Congress in the country is great, but it should be increased further.

I have witnessed the love of the people and the respect with which they look upon the Congress with my own eyes, during my tour. I have visited places where the people have suffered the most. I am glad to say that though their properties had been confiscated and they had lost severely, they were not repenting for what they had done. They are not afraid; they are not cowed down."

CONGRESS CRITICS.

"There has been some criticism", continued Babuji, "against the present policy of the Congress. Attainment of the freedom of a country is not an easy job. It means a continuous and long struggle".

The speaker reminded the audience of the Great War and the fight that was put up by Great Britain to retain her power. Great Britain had incurred heavy losses during the last war. Several thousands were dead, and several more were injured. The Britishers were spending nearly six crores of rupees a day during the war. This went on for years. Several crores of men were supplied from India. As for money, India contributed 400 crores of rupees, whether it was done willingly or not. It is with that Britain that India is fighting today to get her freedom. And it can be easily imagined that Britain will not give that freedom without a struggle. It meant great and continued service and sacrifice.

CONGRESS ALIVE.

One Crore of rupees was collected by Mahatma Gandhi during 1921. It was fifteen years since that was done, and people were saying that Swaraj had not yet been won. Attaining freedom was not an easy job. It was a great and sacred work. Due to the last two Civil Disobedience Movements, several of the Congress Organisations had been declared unlawful by the Government. Several properties had been confiscated, and thus the whole organisation of the Congress had been dislocated. In spite of that, Congress was living. When the test came, it was shown to the world at large that the Congress was still alive. People replied to the challenge of the Government that whether the country was poor or not and whether there was freedom or not, the people as a whole threw their lot with the Congress, thereby showing their great love for the greatest political organisation in the country. But this is not enough. Congress should be further strengthened.

For this, all should join hands and work shoulder to shoulder.

BOMBAY CAN WORK WONDERS

The Congress President appealed to the citizens of Bombay to enrol themselves as members of the Congress. What was shown in demonstration could be shown in their love for the Congress by becoming members of the Congress. Bombay had very good scope for work. Bombay could do a lot if she wanted. Bombay had shown in the past that she could do wonders. Why should it not do it now?

ONE WORKER FOR A VILLAGE.

The speaker then referred to the Manual Labour Clause in the New Congress Constitution and said that it had been introduced to bring together the rich and the poor, the high and the low together, to work in the great political organisation, shoulder to shoulder for the attainment of Complete Independence.

Whatever Congressmen wanted to do for the Country, it could be done effectively only, when the organisation is strong. Because the British Government were organised, they were able to give minute details of Indian life within a few minutes' notice. The Congress also should have such an organisation. For such an organisation, the Congress should have workers. It cannot be said that the Congress has at least one worker in each of the seven lakhs of villages in India, who can carry the message of the Congress to every village. The work of the Congress could never be complete, unless it had on its rolls at least seven lakhs of workers. Both men and women were needed for that work.

WORK WITH MASSES.

Bombay women, continued the Congress President, had proved their worth during the last few years. Where men faltered, women had marched forward and shown their grit, and won. If the people were strong and the Congress was weak, it was the business of the people to strengthen the hands of the Congress. It had happened before, and why should it not happen again? What was wanted was that Congress workers should be in daily touch with the people. After 1920, a new life and been infused into the political life of the country and since then, the Congress had put before the country several programmdes.

COMMUNAL UNITY.

One of the programmes undertaken by the Congress was the question of attaining Communal Unity. As long as there was no communal Unity in the country there was no possibility of attaining freedom. Hindus, Muslims, Parsees Christians, Sikhs etc. should stand together. It had been attempted several times to bring about some sort of settlement between the communities, but it was a matter of sorrow that the settlement had not yet been arrived at. There were daily reports of communal riots or strifes in some part of the Country. The speaker was not discouraged by these reports. India was a very vast country and compared to what was happening daily in Europe, he felt that there was practically no riot or strife in India. The heart of the people of all the communities in the country was good. It was the duty of the Congress workers to create fellow-feeling among the different communities. India was not going to get any sort of help from any outside country. If Indians were to live together in peace like brothers, then they should arrive at some settlement and settle down like brothers.

RURAL DRIVE.

Rajen Babu also referred to work in the villages and the propagation of Khadi. There were several people in the country who had the strength to work and wanted to work, but could not find work. Thus unemployment in the country was increasing. The Government had not cared to find out as to how many people in the country were unemployed. The All-India Village Industries should be developed Khadi should be encouraged. Villages should be organised, if some sort of employment is to be found for those millions of the unemployed in the country. If that is to be done, the Congress ogranisation should be strengthened. And this can be done only by the people.

WORK CONGRESS PROGRAMME

The present programme of the Congress had been criticised, said Babuji. He wanted the people to try and work the programme and see where it led the country ultimately. There was no use saying that there is no 'good' programme before the country, and clamour for some other programme than the one that was already before the country and the Congress. It was the duty of the Congress workers to work the programme of the Congress, and thus catch the imagination of the country instead of sitting quiet and saying that the Congress had not got a 'good' programme.

Babuji then referred to the several critics of the Congress. Such criticism from members of the Congress obviously led to the weakening of the Congress Organisation. No purpose was served by saying that some of the Congress leaders were engaged in crushing some of the other Congress groups. Whatever other impression such statements might create, the speaker was sure that it created an impression that the Congress was losing its power and strength. Workers should have confidence in the people at the helm.

IT WILL SPOIL WORK.

When it was found that there were criticisms levelled not only against the Congress leaders but also against the Congress programme, and that coming from Congressmen, it certainly tended towards creating confusion in the minds of workers who would gradually lose confidence in the Congress organisation. Whether the Congress was following the right path or not, the Congress critics within its fold would be well advised to deliberate over their criticisms and bring them up for discussion at the proper time instead of giving vent to their feelings day in and day out. If what they believe is true, they would certainly carry the day. But it was difficult to carry on the work of the Congress under the present atmosphere, if they carried on their tirade against the Congress and the Congress Programme. How could work of the Congress be carried on, if the thinking power of the Congressmen was divided?

In conclusion, Rajen Babu said that for the attainment of Complete Independence, the country must always be ready to sacrifice. He hoped that the present Congress programme would be carried on by the people.

After the singing of the "Vande Mataram" the meeting terminated.

INVIDIOUS DISTINCTIONS MUST GO

Rajen Babu's Appeal At Bohra Youth League Meeting

A passionate plea for the unity of the two major communities in India—Hindus and Muslims—and working in unison for their common cause, was made by Babu Rajendra Prasad, President of the Indian National Congress, in the course of an address to the Bohra Youth League on Friday night.

INVIDIOUS DISTINCTIONS

The distinctions between the communities were unnatural and artificial.

There was no reason why such invidious distinctions should be imported into the political atmosphere.

NEEDED RIGHT SPIRIT

Referring to the proposed unity pact, Rajen Babu opined that paper-pacts were practically of no use. It was the spirit behind the framing of the pact that mattered. As businessmen, they (the audience) must have known that the longevity and validity of contracts arrived at, depended on the spirit which was the one essential and of this pervaded their mentality, there would be no necessity or use for concluding pacts.

EVERY INDIAN'S OBJECTIVE

The attainment of Swaraj must be the object of every Indian—every Hindu, every Muslim, every Parsi and Christian. It was their India— the India in which they were born and in which they would die. What little every man could do was necessarily of importance in the achievement of Independence. The Congress was theirs and it was their bounden duty to contribute their mite.

They had begun well and he hoped their efforts in the cause of unity, concluded Rajen Babu, would soon be crowned with success.

Rajen Babu and Acharya Kripalani were then garlanded.

With a singing of a song emphasising the necessity of unity among the communities, the meeting terminated.

Rajen Babu's Mild Rebuke To S. Indian Leaders

ISSUE OF ACCEPTANCE OF OFFICES

"Expression Of Views By Important Office-Holders Embarassing"

"My own impression is that the general opinion in the country is in favour of contesting the elections to the legislatures."

The above statement was made by Babu Rajendra Prasad, President of the Indian National Congress in the course of an interview given to the Press representatives at the Congress House on Friday afternoon.

AMPLE TIME FOR CONGRESS.

He further reiterated that the Working Committee and the All-India Congress Committee would be convened immediately after the passing of the India Bill with a view to consider the attitude of the Congress towards it. He thought that there would be ample time for the Congress to take a decision on the issues and to guide the country.

Babu Rajendra Prasad said: "The Joint Committee's Report was different from the White Paper, the Bill is different from the Committee's Report and who knows whether there may not be modifications still in the House of Lords. We are waiting for the Bill to emerge from Parliament before we form an opinion."

The President said: "The Working Committee and the All-India Congress Committee will be convened almost immediately. Even the Congress, I expect will meet in February. I think there will be plenty of time for the Congress to decide the issues.

Q. "The Presidents of one or two Provincial Congress Committees have been advocating a particular line of action regarding the New Constitution. What do you think of it? For instance in Madras Mr. S. Satyamurti, the other day stated that he would not mind Congressmen accepting office under the New Constitution. Mr. B. Sambamurti, opening the Kerala Political Conference, stated that the country had tried obstruction in the legislatures and that Congressmen should now enter the Cabinet and fight the Governor from within.

A. I do not mind individual Congressmen expressing their views or carrying on propaganda in favour of or against acceptance of office. But persons holding important offices in the Congress organisations in my opinion should not express their views one way or the other because that will be embarassing.

Asked whether Congressmen could accept membership of the Delimitation Committees being formed in the provinces, the Congress President said that they should not they would not be able to do any effective work on the Committees.

When his attention was drawn to the fact that Mr. C. R. Reddy, a Congress member of the Madras Legislative Council had been nominated on the Delimitation Committee, Babu Rajendra Prasad said: "It may be he has been nominated. But the question is whether he has accepted."

DISCIPLINARY ACTION.

His attention was again drawn to statements made by Messrs. Satayamurti and Sambamurti advocating acceptance of offices and he asked whether those statements were not such as required to be taken official notice of, especially in the light of his own view that Congress would not express any opinion until the Bill takes its final shape and in view of the rules and regulations framed by the A. I. C. C. at Patna for disciplinary action being taken by the Congress Executive against those who deviated from the laid down policy of the Congress.

Babuji said: "Expression of opinion is one thing and taking disciplinary action is another. After all disciplinary action can be taken only in serious cases."

Q. Do you not think that you should make a definite statement about the attitude towards the Congress Socialists?

A. It is a matter for the Working Committee to consider and not for me to say anything about it.

Q. Do you not think that Socialist mentality is growing in the country?

A. I do not know if it is growin. But there is the Socialist Party and that Party I can say, is active. Those who are in it know better.

Employees' Suit Against Indore Malwa United Mills

REFUSAL OF TRUSTEES TO DISTRIBUTE PROVIDENT FUND AND ITS SEQUEL

Mr. Justice Divatia, sitting as the vacation Judge at the High Court on Friday, heard the suit filed by William Dowling and another against the Indore Malwa United Mills Ltd. and others.

The plaintiffs who are employees of the defendant company filed the suit on behalf of themselves and all other present members of the "Indore Malwa United Mills Ltd. Provident Fund. They prayed for an order that certain securities standing to the credit of the fund should be realised, and the amount together with all other sums of moneys belonging to the fund should be distributed among its members.

The company had constituted a provident fund some years ago for the benefit of its employees and certain rules were framed for the administration of the fund. The rules provided that it should be administered by a committee consisting of the Directors of the company and a nominee of the employees. Defendants 4 to 11 were members of the committee. In July 1933, Sir Fazulbhoy Currimbhoy, Ahmed Fazulbhoy Currimbhoy and Noormahomed Somji (defendants 2, 3 and 4) were appointed trustees of the fund, and Rs. 2,56,265 was invested in Government securities purchased in their names and held by them.

THEIR APPOINTMENT CHALLENGED

It transpired that the company in December 1933 dispensed with the services of about 50 of its empoyees who, thereupon, demanded the amounts payable to them out of the provident fund. At the time the company challenged the validity of the appointment of defendants 2, 3 and 4 as trustees of the fund, and this led to a dispute between the company, the committee and the trustees. Under the circumstances, two of the discharged employees filed a suit in the High Court against the company, the Directors and trustees claiming the amounts payable to them and to other discharged employees. The case was compromised, and it was settled that all the discharged employees except 4 should be paid what was due to them. For this purpose certain securities were sold off and the claims of those employees were settled.

It was alleged by the plaintiffs that at present defendants 2, 3 and 4 held 1945-55 Government loans of the face value of Rs. 1,25,000 and Rs. 34,000 in cash belonging to the Provident Fund of which the present employees of the company were the beneficiaries and they requested the Company to pay them the amounts due to them. Thereupon, the company agreed to close Fund and to distribute the same among the employees on certain conditions. This was also agreed to by the committee consisting of defendants 4 to 11.

Notwithstanding this agreement with the company and the committee, the Trustees refused to distribute the amount of the Provident Fund. And the dispute led to this litigation.

At the hearing of the suit, a consent decree was taken between the plaintiffs, the company and defendants 5 to 11. Defendants 2, 3 and 4 submitted to the orders of the Court.

CONSENT DECREE TERMS

Under the terms of the consent decree, defendants 2, 3 and 4 were ordered to deliver to the company Government securities of the face value of Rs. 1,25,000 and the cash in their hands after deducting certain amounts due to some other members of the Provident Fund and for costs. The company was directed to sell these securities and out of the sale proceeds and other cash, if any, to pay the costs of the parties appearing in the suit, and then pay the amounts due to the present members of the Fund. It was further provided that Rs. 1,311-14-2 was to be received by the company and half the profits, if any, which might accrue on the realisation of the securities. The other half of the net profits was to be distributed among the present members. The 4th defendant was also to be paid the amount of his contribution to the fund.

The company further agreed to indemnity defendants 2, 3 and 4 as such trustees against all liabilities and expenses which they might incur in respect of any acts done by them under this decree.

Mr. K. A. Somji instructed by Messrs Malvi Ranchhordas and Co., appeared for the plaintiffs; Mr. J. H. Vakeel instructed by Messrs. Minochecher Manchershan Hiralal and Co., for defendants 2 to 4; and the Advocate General instructed by Messrs. Malvi Ranchhordas and Co. appeared for the company and defendants 5 to 11.

ditah County Court recently, a defendant will pay off a debt in forty-seven years. The judgment sum was for £570 in respect of a High Court judgment against him. He said all he could offer for the debt from his present earnings, was £1 a month. "I have other judgments against me," he added. Judge Lilley made an order of £1 a month, remarking to the plaintiff's solicitor. "You can apply to have the order increased if his circumstances improve." Similar consideration is frequently exercised in the Indian Courts in favour of poor persons.

The All-India Trades Union Congress is also willing to cooperate in the forthcoming elections if there is an agreement on the policy to be followed in the Council and the corresponding mass activity outside to back it up.

In order to facilitate the cooperation on these issues we are of opinion that a joint machinery should be set up after an All-India agreement is formally arrived between the two organisations.

ASSURANCE TO T. U. C.

It is understood that the Congress president agreed with most of the issues raised by the representatives of the T. U. C. and promised to place their views before the Working Committee of the Indian National Congress at an early date. With their consent he will send an invitation to the representatives of the T. U. C. to come and discuss with the members of the Working Committee the several issues that had been raised by them.

T.U.C.'s CHARGE-SHEET AGAINST CONGRESS

Alleged Halting & Inadequate Policy

RAJEN BABU PROMISES TO PUT THEIR CASE BEFORE WORKING COMMITTEE

Babu Rajendra Prasad, the President of the Congress spent a busy day on Friday. He received several deputations at the Congress House. Among the Deputations that waited on him were the Shri Mahajan Association, the Sikh Political Party; the Diamond Merchants Association the Silver Merchants Association and the All-India Trade Union Congress.

The representatives of the Trade Union Congress who spent nearly half an hour with the Congress President discussed in detail the attitude of the Congress towards labour. They submitted the following points for the consideration of the Congress President:—

The Indian National Congress has carried on the struggle against foreign domination for several years. This stsuggle has passed through various stages and today the Congress is committed to Complete Independence as its goal.

"COMPLETE INDEPENDENCE."

By complete independnce the Trades' Union Congress understands, severence from British Empire, transfer of all political power to the producing masses and the reconstruction of the Indian Society on suih lines as will open the path of progress and prosperity to them and will eliminate the different forms of exploitation which exist to-day.

The struggle for independence, is essentially a struggle of the oppressed and exploited masses, the workers, peasants, artisans shopkeepers and petty intellectuals. Their interests are irreconcilable with interests of Imperialism and a relentless and uncompromising fight for independence must draw in these classes.

In order to mobilise the oppressed and exploited masses in the struggle for freedom, their economic demands and political aspiration must be incorporated in the programme of national struggle. The Congress has failed to do so, although an attempt has been made in the Karachi Congress. We do not regard this resolution as an expression of the demands of the masses. But we regard it as a beginning of a process of radicalisation which could be developed further.

"HALTING AND INADEQUATE."

With this in view, the All-India Trades' Union Congress place before you and the delegates who gathered in Bombay, the political programme chalked out by it at its Madras Session. It is regettable that the National Congress has not even cared to discuss this programme. The programme and policy of the Congress as it is at present is halting and inadequate.

The Congress has not defined its attitude to the Trade-Union Movement. When occasions have arisen for co-operation the Congress has pointed out to us that so long as the Trade-Union movement is dipided it could not adopt a definite policy. The militant section of the Trade-Union Movement stands united to-day and is eager that the Congress should define cleerly its labour policy.

All-India Trades' Union Congress has expressed its desire in a resolution of its executive passed in Nagpur, for co-operation with the Congress in developing the struggle against the attempt of imperialism to force the reforms on India.

WRECK THE "REFORMS."

The All-India Trades' Union Congress wishes to develop a nation-wide anti-imperialist struggle on the question of wrecking the slave reforms, to take concrete steps to realise its anti-war resolution and attainment of the immediate demands of the working class and peasantry by direct "mass action" and seek co-operation of the Congress on the basis of these principles.

Besides this the All-India Trade Union Congress also feels the necessity of co-operation on the following issues:—

1 The repeal of anti-labour laws;

2 To move bills in the legislative on the following heads:—

(a) Unemployment; (b) Forty hours week; (c) Minimum living wages; (d) Leave facilities with-

More Revelations About Municipal Elections

Witnesses Give Sensational Evidence Of Bribery And Impersonation At Small Causes Court Enquiry

That an authorised agent of a candidate in the last Municipal elections from the 'B' Ward, collected 232 ballot cards and distributed them between two candidates according to their needs, so as to ensure the success of both, was the sensational statement made by a witness before Mr. A. A. Chitre, Chief Judge, Small Causes Court on Thursday at the resumed hearing of the election petition to set aside the election of 16 corporators on grounds of alleged malpractices.

When the Court took up the petition for further hearing, one Abdul Rahim Mustafali, who gave his profession as of repairing umbrellas, made a statement to the court, that he was offered Rs. 10 to give evidence on behalf of the petitioner Kanji Udeshi.

The next witness examined was one Husseinali Naoroz. On being given protection by the Court, witness said that he impersonated his father and his brother who were both dead years ago, as their names appeared on the voters' list. He got the number-slips through the agent of a candidate and obtained ballot papers after signing the names of his father and brother respectively. He came out of the polling booth with those ballot papers, instead of putting them in the ballot boxes, and handed them over to the agent who sent him inside. The writing of witness was taken in court.

System Of Voting

Mr. L. R. Tairsee who next stepped into the witness box, explained at length the present system of voting. He agreed that the rule inserted a few years back that the candidates should be supplied with number-slip book so that they could co-operate with the Municipal staff in facilitating the voters in obtaining their ballot cards, was abused during the last elections.

He had considerable experience of electioneering as a corporator fore the lost elections on Janbofore the last elections on January 22, he addressed a letter to the Municipal Commissioner just 10 or 15 days prior to the elections, pointing out that the final electoral roll contained names of many voters who were dead for years.

"Eliminating Errors."

Mr. Clubwalla, Counsel, representing the Municipal Commissioner, pointed out that every effort was being made to bring the lists up-to-date and eliminating errors as far as possible.

The Chief Judge asked if the Municipality did not consider whether the same individual who was the Town Duty Officer acting as the Election Officer might have found the additional duty too much.

Mr. Clubwalla replied that the same officer was carrying on the work for a number of years satisfactorily.

Mr. Tairsee continuing said that in addition to addressing a letter to the Commissioner, he spoke to him at the Bombay Port Trust, when he had occasion to meet him. The Commissioner told Mr. Tairsee that he would not do anything in the matter.

Court:—You must have teased him and he might have said, 'I don't want to do anything in the matter.' (Laughter).

Mr. Tairsee:—I told him somethings which he did not like. (Renewed laughter).

Mr. Clubwalla:—We know what Mr. Tairsee usually says.

Proceeding witness said that on account of this rule, much scope for impersonation was created.

A great deal of rush had to be dealt with in these elections, continued the witness, and what was the duty of the Municipality was thrown on the shoulders of the candidates and their agents who were interested parties.

Mr. Clubwalla:—So this rule framed with the best intentions was much abused?

Witness:—I said it in the Legislative Council, I said it in the Corporation and I say it here again. (Laughter).

After one Sakkut Sheriff gave evidence, Mr. Allaudin Mohiuddin Nurani, Editor of "Daily Samachar" gave evidence.

Mr. Nurani deposed to having worked as an authorised agent to a candidate. Witness was secretary of the Bombay Hawkers' Union. He knew one Mahomed Gani, an agent of the same candidate. Witness warned Md. Gani not to carry on malpractices, but witness was told that if the candate's success was to be assured, the agents must do as other agents of other candidates were doing. Gani was at the tent of the candidate and was sending in bogus voters. He used to collect and accumulate ballot cards, said the witness.

Eleven persons were kept outside near the candidate's tent for this purpose, the witness continued. Some one would go inside and note down the numbers of voters who had not recorded their votes and supply these numbers to the 11 persons who would go and secure ballot cards. Witness saw these 11 persons going in many times. They obtained ballot cards and handed them over to Mahomed Gani. On one occasion witness saw 150 ballot cards with Mahomed Gani and on a second occasion he saw 232 ballot cards.

In the evening, witness continued, Mahomed Gani went inside the ballot room and deposited these cards in the ballot boxes. Two candidates were working together and they would see whose needs were greater and accordingly the ballot cards were distributed between these two.

Witness said that he saw Mahomed Gani giving the number of Dr. Meisheri and putting the thumb mark on the counterfoil of the ballot card. Gani first asked witness to do the same thing but witness refused. Gani then went to the ballot clerk gave the number, put his thumb impression on the counterfoil, and secured the ballot card.

When Dr. Meisheri came to record his own vote and found that some one already had voted for him, witness stated that Mahomed Gani cracked jokes with Dr. Meisheri.

Further hearing was adjourned to Friday next.

Mr. H. R. Pardiwalla with Mr. D. F. Jaffrabadwalla appeared for the petitioner.

Mr. Clubwalla represented the Municipal Commissioner.

INCOME TAX LAW IN INDIA

South Indian Chamber Of Commerce Protests To Government

MADRAS, May 29.

The Southern India Chamber of Commerce have sent to-day a communication to the Government of India protesting against the composition of the Committee to enquire into the law and administration of income tax in India.

The Chamber in the course of their communication, deplore the reported non-inclusion of representatives of Indian commercial interests in the personnel of the committee, and state that an impartial enquiry into the law and administration of income tax should be conducted by the representatives of the people who have direct knowledge of the difficulties and disadvantages experienced in this connection.

The Chamber, therefore, urge the appointment of a majority of businessmen on the committee.—United Press.

WAKE UP YOUR LIVER BILE
WITHOUT CALOMEL
and you'll jump out of bed feeling you could push a bus over

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, liquid paraffin, fizzy drinks, palatable laxatives or harsh purgatives, and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels, and a mere movement doesn't get at the cause. The reason why you feel rotten is your liver. It should pour out two pints of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blosts up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel rotten. Your whole system is poisoned.

It takes those famous, sure-acting CARTERS LITTLE LIVER PILLS to get these two pints of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. Stand out for Carters Pills, the famous sure-health kind. Look for the name Carters on the package.

credit for his exceptional characterization, as also does Alice White as the dumb chorus girl who tries to force a gun-wedding on Vallee and winds up by marrying his press agent. Joseph Cawthorn and Al Shean, the latter famous in the team of Gallagher and Shean, provide no little mirth as the sponsors of a radio hour. Others in the cast who deserve special mention are Robert Armstrong, William B. Davidson, Russell Hicks, Phillip Reed and Addison Richards. Alfred E. Green has done a fine piece of work in direction by welding, the pictorial sequences and the musical part into a well-knit entity. Jerry Wald, Carl Erickson and Warren Duff are responsible for the screen play.

KUMAR MANAHAR BARVE'S MUSICAL CONCERTS

At The Royal Opera House

Kumar Manahar Barve, the talented musician will shortly make his appearance before the music lover of Bombay after a lapse of 5 years.

Kumar Manohar Barve showed his talents for music since his childhood and at the age of 12 he displayed skill in playing musical instruments numbering over 30, both Eastern and Western. The Boy prodigy earned tributes in his last tour abroad. The gifted artist will be again in Bombay and give his first performance on the 1st June 1935 at the Royal Opera House.

Grave Allegations Against Vakil

HYDERABAD (DN.), May 30.

The Third City Magistrate, Hyderabad, committed to-day Syed Masool Ali, High Court Vakil, to take his trial at the High Court Sessions.

The case for the prosecution was that a Hindu girl named Pocha, aged 9 years, was employed by the accused as a domestic servant. On the 9th April, while the ladies of the house had gone out to attend a "Majlis," the accused is said to have taken advantage of the helplessness of the girl and to have committed the crime.

The accused has pleaded "not guilty." The case has created considerable sensation in the City.—United Press.

BIHAR KISAN GRIEVANCES

Council Of Provincial Sabha Considers Reports From Districts

PATNA, May 29.

A meeting of the Council of Behar Provincial Kisan Sabha was held yesterday at noon in the "Yogi" Office on the Maidan under the presidentship of Swami Sahajanand Saraswati. Among those present were Babu Ganga Saran Singh, Babu Shyamnandan Sinha, Babu Buddan Roy Varma and Babu Awadheswar Prasad Sinha.

The main item in the agenda was the consideration of the report submitted by various district Kisan Sabhas regarding the local grievances of the Kisans, as required by the Provincial Kisan Sabha. The report was adopted after a prolonged discussion and Pandit Rambriksh Benipuri, Secretary, Publicity Board, Provincial Kisan Sabha was directed to give adequate publicity to it. In this connection it may be mentioned that the difficulties of Patepur (Muzaffarpur) Kisan Sabha workers were specially considered and it was resolved to take immediate steps to ameliorate the same.

By another resolution Pandit Rambriksh Benipuri was appointed to be the presiding officer for the election of members for the Bhagalpur District Kisan Sabha.

The Council appointed Babu Baladeva Sahay to be the Legal Adviser of the Provincial Kisan Sabha.—United Press.

WAGES BILL INADEQUATE

Bombay Railway Employees Urge Better Representation Of Workers' Interest

BOMBAY, May 29.

The Secretary of the B.B. and C.I. Railway Employees' Union, Bombay, in the course of a letter to the Government of India Industries and Labour Department on the Payment of Wages Bill which is before the Select Committee, says:—

"The Government have introduced the Payment of Wages Bill to regulate deductions made by employers from the wages of workers. The Union considers that the protection afforded by this Bill, now before the Select Committee of the Central Legislature, is, in many important respects, very inadequate and urges upon the Government to give due consideration to the following views:

(1) In Section 2 of the Bill, no restriction that regulates the forfeiture of Provident Fund, Bonus, Gratuity, Travelling allowances or any sum paid to defray special expenses entailed by the nature of employment, agreement to contract out the liability of an employer to pay Gratuity, Provident Fund, Bonus, etc., will continue to be valid. It is essential that Provident Fund or Gratuity should be treated as deferred pay, and any forfeiture should be subject to at least the same restriction as fines.

(2) The Bill should make it clear a reduction in the worker's pay by way of punishment, should be considered as a fine, though indirect and subject to the same restrictions as direct fines.

(3 The maximum percentage of fines that can be inflicted should not exceed 2 p.c. as recommended by the Fawcett Committee, instead of half an anna in the rupee.

(4) In Section 7, while requiring employers to use the Fine Fund for the benefit of workers, there is no provision for representation of organised labour in the management of the Fine Fund.

(5) In Section 12, if a fine is inflicted after specifying acts of commission or omission for which fines may be imposed, there is no restriction except in regard to the maximum. There is no legal redress if a person is fined arbitrarily without any opportunity for defence by the accused employee himself or his Union. This must be provided for if the Bill is to be really useful.—United Press.

TRAGIC END OF POLICE OFFICER

Takes Fatal Jump From Precipice In Pursuit Of Dacoit

Mr. Thakur, a police sub-inspector of Parner in Ahmednagar district, met his death on Tuesday night in tragic circumstances writes the Ahmednagar correspondent of 'The Times of India"

The inspector was investigating a dacoity case in which property worth more than Rs. 27,000 was involved. One of the two arrested culprits, a Marwari under the pretence of showing the place where he had buried part of the property, took the sub-inspector to a place about nine miles from Parner.

It was quite dark and about midnight when they reached the place. All of a sudden the Marwari jumped over a precipice and fell 150 feet into the valley. He must have died instantly. The sub-inspector, who did not know the locality rushed after him and met with the same fate. Two policemen accompanying the sub-inspector realised the situation in time.

A police party was sent to the place from Ahmednagar to recover the bodies. The inspector's body was cremated with police honours at Parner.

MASSES MUST BE ORGANISED

MEHMEDABAD, May 28.

Messers Kamalashanker and Thakerprasad Pandya arrived here yesterday.

A public meeting was held in the Gandhi Chawk Thakurprasad Pandya said that the Congress has given up the direct struggle. After the suspension of C. D. a terrible depression has taken hold of the country. Unemployment and poverty grow day by day. Thousands live on the brink of starvation. The Congress leadership has taken up the programme which includes direct struggle.

The speaker severely criticized the Congress programme He said that the programme has, at the most, the potentiality of throwing some crumbs to hungry millions But it will never lead to our goal

Preceeding further he condemned the new constitution. It was meant to tighten the chains of Imperialist exploitation "We must reject the new constitution. We must accept the constitution framed by a constituent Assembly" he said.

Coming to the programme he said that the country want Swaraj for masses. Workers and peasants must be organized on their day-to-day struggles Their partial struggles will make them politically conscious That was the only way to intensify the struggle of Independence.

GOLD & SILVER

Bombay, May 31

The local silver market was fairly active to-day on improved buying on better Montreal and London advices. There was some short covering and prices steadily improved to Rs. 80/2. The gold market was also steady with a better enquiry. Shanghai T T on London opened to-day at 1-8 7/16, with a steady tone.

In the afternoon the market was quiet. There was absence of any important buying which resulted in some decline in gold.

LIVERPOOL COTTON

Bombay, May 31

The Liverpool cotton futures market opened at a decline of 7 to 9 points on Thursday. There was hedge selling together with Bombay and scattered Continental selling which met good month-end trade calling. Later on trade calling found offerings lighter. The market closed at a decline of 4 to 6 points. Middling American Spot cotton prices declined 5 points at 6.93d. per lb.

INDIAN COTTON

East Indian cotton futures market was easy and closed at a decline of 6 points.

EGYPTIAN COTTON

Egyptian cotton futures market was irregular. Sakels futures closed one point up to one point lower. Uppers futures declined 4 to 5 points. Spot Upper cotton prices declined 17 points at 7.63d.

ALEXANDRIA MARKET

The Alexandria cotton futures market was quiet but steady and closed at a rise of 6 points to a decline of 9 points.

COMPLICATION PREVAILS

Messrs. M and B Stern state:—

Note: With the Weekly Weather Report indicating slightly unfavourable conditions, trade seems to be more inclined to secure nearby requirements in Liverpool which helped to sustain prices. However, the cables from Paris state that M. Flandin having failed to obtain the plenary powers, the Cabinet has resigned. This will add further uncertainty to the present world situation and with the complicated American legislative programme may force commodity prices temporarily lower.

The immediate effect on the franc is also, likely to be adverse unless the British Control again step in to stop any onslaught from speculators. The Socialists who have now been asked by the President to form a Cabinet are not likely to ignore the National issue to uphold the gold standard since they have a large stake in the Civil administration and any devaluation of the franc will seriously affect their salaries and pensions.

Reuters' latest cable states: "Lebrun has asked the Socialist President of the Chamber, Bouisson to form a Cabinet as quickly as possible in order to be ready to take office to-day. The unexpectedly heavy defeat opens one of the gravest crisis since the war. Its immediate effects will redouble the efforts of the anti-franc speculators and accelerate the drain of gold. Bouisson will try to induce the Socialists to take office besides the centre and right in a national union of Government on the Belgian model and designed to stave off devaluation."

Although the decline in prices of all commodities during the last few days has partly discounted the present situation, we believe cotton may sag away further but new corp October in Liverpool around 5.80d. seems to be a reasonable level to start accumulating contracts on the scale-down.

PROGRESS OF U. S. COTTON CROP

The official weekly weather report, states that the week under review was generally unfavourable. Conditions in the North were abnormally cool, while the soul in the Northwest has been persistently wet. Rainfall for the past week was moderate. In Texas and Oklahoma much cotton has not yet been planting with the growth slow owing to cool nights. Much of cotton in the Northeast has been killed, but elsewhere progress has been fair.

NOTHING can equal nor even approach their sure and prompt efficacy. By the use of OKASA, women revitalize their whole body and recapture the youthful feelings and looks which are their most valued possessions. Men regain lost vitality and a new "Surge of Life" so necessary for work, happiness and pleasure.

OKASA is not a stimulant and therefore claims no magical effect in 24 hours like other common preparations. OKASA is a real nourishment for the Glands and the Nerves. It feeds the system with Nature's own Hormones and supplies your body with the essential elements necessary for

Health-Vigour-Vitality

EVERY MAN and WOMAN MUST

NEW YORK COTTON MARKET

New York, May 31.

The resignation of the French government over the inability to obtain plenary powers to support had its natural repercussion on the cotton market where traders were expectantly awaiting further developments while fears that the Agricultural Adjustment Act might share the fate of N.R.A. also deterred operators but the market displayed a fairly steady tone due to improved technical position as a result of recent liquidation and prices recorded a substantial rise owing to the accumulation of orders over holidays.

Trading in October commenced at 11.29 i.e. 2 points higher than the previous closing prices advanced on better Liverpool advices and scattered buying together with covering and also due to less offerings with the price gradually rising to 11.46 but the higher level attracted some speculative selling which reduced gains to 13 points.

The New York cotton market finally closed at 10.64 with a decline of 63 points.

Rajen Babu Bombarded By Interviewers

NON-COMMITTAL ANSWERS TO POINTED QUESTIONS

Studying Situation In Country Before Giving Lead

BOMBAY, Friday.

A rousing reception was accorded to Babu Rajendra Prasad, President of the Indian National Congress on his arrival in Bombay this morning, accompanied by Acharya Kripalani, General Secretary of the Indian National Congress.

As the Calcutta Mail approached the Victoria Terminus hundreds of people thronged the route occupying over-bridges, and station platforms to obtain a darshan of the Congress President.

GARLANDING AT KALYAN.

At Kalyan Rajen Babu was garlanded by the Secretary of the local Congress Committee. Mr. Patil and Mr. Mathuradas Trioumji received the President at Kalyan on behalf of the B. P. C. C.

At Matunga, though people knew that the Calcutta Mail does not stop there, crowds occupied the over-bridge and cheers rent the air as the train dashed past.

A great ovation awaited Rajen Babu at Dadar Station, where officials of the F and G Wards District Congress Committees, offered him welcome. Crowds rushed at the compartment and garlanded Rajen Babu profusely.

At Byculla people gathered only to be disappointed as the Calcutta Mail does not stop between Dadar and the Victoria Terminus.

OVATION AT V.T.

As a crowning point to the vociferous welcome accorded all along the route, crowds thronged the Victoria Terminus long before the arrival of the train.

Special barricades were erected at the station to control crowds and lady volunteers under Miss Safia Somji and Gandhi Seva Sena under Mrs. Peri Captain, along with 100 members of the Bombay National Guards under Mr. A. S. E. Iyer who formed a guard of honour.

Greetings rent the air as Rajen Babu alighted from the train and walked into the crowd towards the motor-car kept ready for him. More than 30 associations garlanded him at the Station.

Prominent Congressmen received him at the station. Messrs. K. F. Nariman, President of the Bombay Provincial Congress Committee, Mr. Nagindas T. Master, Vice-President, Ganpat Sankar Desai, Secretary, Dr. G. V. Deshmukh, Dr. Sathaye were present along with the members of the B.P.C.C.

Raja Bahadur Govindlal Shivlal, the host of Rajen Babu also offered welcome.

The arrangements made by the G.I.P. Railway authorities were perfect, and No. 9 platform was kept entirely at the disposal of the public, who had free access to the train, as it arrived.

TRAFFIC CONTROL BUNDOBUST

The police and the railway authorities worked in co-operation with the volunteers, and rendered good service in controlling the traffic and maintaining order. On account of these measures, Rajen Babu was able to drive through a seething mass of humanity without difficulty and was ale to keep his engagements according to schedule.

Rajen Babu Answers Questions

A representative of the "Bombay "Chronicle" got into the compartment in which Rajen Babu was seated, at Kalyan.

As pressmen bombarded him with questions and pressed him for a clear expression of views on the alleged interference of the Congress Socialist party in the working of the Congress programme, Rajen Babu replied to them in a manner indicating that the so-called interference of socialists had never existed, as far as he was aware.

As the train rushed on with din and noise, the pressmen exercised their lungs over questions which in the opinion of the Congress President had not arisen so far.

Referring to the question of the Congress accepting offices, under the new Constitution, Rajen Babu reiterated his former statement that until the India Bill was passed finally and the constitution was ready, Congress would not consider the question. At present he was not prepared to say anything on that issue. The India Bill had been undergoing changes from time to time, and no one was in a position to say what its final shape would be.

"But Mr. Satyamurti seems to be anxious to accept office under any constitution," put in our representative.

"We protest against that interpretation," replied Rajen Babu

Congress Socialists.

Some press representatives seemed to have the growth of the Congress Socialist Party on their brains.

"Rajen Babu, don't you think that a time has come when the Congress should clearly express itself on the attitude of some Congress members, towards Socialism?" asked a pressman.

"Not at all," replied Rajen Babu. "If such a situation arises, then the Working Committee and the All India Congress Committee will consider the issue."

"But you can give a personal lead in the matter," the same representative pressed.

"No," replied the Congress President. "I am going round the country getting into touch with the conditions everywhere. I must study the situation before giving any lead."

After this interesting discussion, the roaring train entered a dark tunnel and the din increased. The party sat in forced silence for any human voice would be weak against that reverberating noise of rolling metal.

As the train passed again out of the tunnel the thread of discussion was resumed. What was the attitude of the President of the Indian National Congress on the socialist resolutions passed at several provincial conferences in the country?

"There are questions on which there is room for difference of opinion," observed Rajen Babu, "but they do not affect the Congress resolutions and we do not want to take notice of them."

Regarding the attitude taken up by the Bombay Congress Socialist Party on several aspects of the Congress programme, Rajen Babu observed that he would discuss the whole question at an informal conference with the Congress workers.

But there would be no final verdict, as the final verdict was to come from the All-India Congress Committee and the Working Committee.

Our representative pointed out to Rajen Babu a press message which said that the Government would not permit any enquiry regarding the condition of the Detenus.

The enquiry was proposed to be held by a committee consisting of Congress members of the Legislative Assembly.

Rajen Babu observed, "If the Government do not want light to be thrown ("on their merciful deeds" put in Acharya Kripalani sitting opposite), "we can't help it."

A bundle of letters handed over by Mr. S K Patil to the Congress President, then engaged his attention and before any attempt to discuss any other questions, was successful the train pulled up at Dadar and people claimed all of Rajen Babu's time.

After alighting at Victoria Terminus, Rajen Babu drove to the 'A' Ward and C Ward Congress Committee offices, and then to the Congress House where a reception was held. He will be the guest of Raja Bahadur Govindlal Shivlal, during his stay in Bombay.

A large crowd gathered at Victoria Terminus to receive the Congress President. Rajen Babu was garlanded on his arrival by representatives of many political and social associations.

Babu Rajendra Prasad, accompanied by Acharya Kirpalani, the General Secretary of the Congress, arrived in Bombay on Friday morning.

TO MEET CONGRESS WORKERS

Babu Rajendra Prasad, President of the Indian National Congress, will meet the Congress Workers in an informal meeting on Saturday, at 8 a.m. (S T.) at Congress Huse.

The occasion will be utilized for introducing the Congress workers to the Congress President.

The Members of the B. P. C C. and Ward Executives and others taking part in Congress activities are requested to attend punctually since the President has got another appointment at 8-45 a.m. (S. T.).

SARDAR PATEL RETURNS TO THE CHARGE

Govt. Plague Communique Exposed

"SELF-CONTRADICTORY IN PARTS; INCORRECT IN MAIN FACTS"

Sardar Vallabhbhai has issued the following statement in reply to the Government communique:—

"The latest communique on the plague epidemic in the Borsad Taluka is another futile attempt on the part of the Government to throw dust in the eyes of the people. It is self-contradictory in parts and incorrect in its main facts. "Plague" it says, "usually dies out with the onset of the hot weather." But Government took no steps for the inoculating of the people until the beginning of April, reserved its remedial measures, and that too only for the town of Borsad, until "the onset of the hot weather," and did the bulk of the inoculation when plague was expected to be on the wane.

It refers to the systematic touring of the three medical officers on "plague duty". They are described as plague officers but one of these was Mr. Kadhe, who, in the words of the communique, in the same paragraph, "was appointed for the treatment of pationts suffering from malaria and other diseases." This gentleman is said to have visited 20 villages and treated 500 patients—malaria patients obviously. We do not know if these disgruntled doctors treated a single plague patient.

As regards the belated inoculations, it is enough to mention the fact that those done by Mr. R. B. Shah from the 20th April were so badly done that many people suffered from excruciating after effects, and the doctor had to be immediately removed on grounds of incompetence on a telegraphic complaint sent by the Taluka Local Board President to the Director of Public Health.

As regards the systematic survey of the sanitary condition of the affected villages, made by the Assistant Director of Public Health in company with Mr. Javeribhai Patel, President of the Local Taluka Board and the Mamlatdar" a diary of the president would be very eloquent. But as I have no access to the diary, I will content myself with quoting the president's own words from a speech read out by him at the meeting in village Bodal addressed by Mahatma Gandhi on the 28th May.

"The Local Board is a poor and resourceless body. It has no means to cope with a terrible epidemic like plague. The plague has been endemic here for four years and has been increasing in its extent and intensity each year, but we have had no Government help. The District Local Board made repeated requests for grants, but without avail. We were thus sitting helpless and in despair, cursing our lot, when god listened to our complaints and sent the Sardar and the Durbar Saheb and Dr. Bhaskar Patel who opened the plague relief camp and emergency hospital, and carried on a vast disinfecting and cleaning campaign in every effected village" etc. I omit the portions in the speech devoted to excessive praise of me and my volunteers—praise which we do not deserve, as we did no more than our obvious duty.

The Government communique bravely mentions figures of houses disinfected and fumigated rats found and baits consumed in the town of Borsad. Why is it then silent about the work Government claims to have done in the rest of the Taluka? The fact is that no work was done in the villages when plague was at its height, for days and months plague had been raging in villages and yet there were no reports of rat mortality or plague cases. It was only when the plague relief organised by us had covered all the affected villages that the Government were roused from their slumbers and sanctioned Rs. 2,000 for the town of Borsad. Much is being made of the these belated measures in the town of Borsad it is curious to observe that though the grant of Rs. 2,000 was made for "the specific purpose of getting the whole town disinfected and fumigated with sulphur before the people who had sought temporary shelter in the fields or elsewhere returned to their homes."—to use again the words of the Government communique,—"hurried attempts are now being made for dividing the town into demarcated parts and classified houses, long after the people have returned to their homes."

Government grandiloquently say that plague preventive measures are most effective "when they are undertaken systematically in the inter-epidemic periods, i.e., months when no plague cases are occurring." Is it that Government have made this brilliant discovery only in the month of May of 1935, or was the discovery before them all these years If the latter was the case I should like to know what remedial measures they took in 1932, 1933, and 1934 in the inter-epidemic periods of those years? This I think is enough to expose the hollowness of the claims made in the amazing communique. I only hope and pray that they will at least now try to do something in justification of the claims.—A.P.

Great Welcome To President In "A" Ward

Babu Rajendra Prasad, President of the Indian National Congress, was received with due eclat on arrival at the 'A' Ward Congress Committee Office situated in Manohardas Street, Fort, at about 8-35 a.m. The whole scene presented a gorgeous appearance, due on such a festive occasion.

Buntings and tri-coloured National Flags were fluttering in the breeze on all sides.

The Front of the office in Bazargate Street looked like a green lawn, wood grass, coloured green having been strewn on the road.

Chorus Of Slogans

The archway leading to the premises of the office was decorated on both sides with huge portrait of Gandhiji. All round were visible cloth placards inscribed "Independence is our goal," "Freedom can be achieved not by begging but only by 'Sacrifice'," "Long live India's Liberator Mahatma Gandhi" and many others in Gujarati.

The whole "lawn" quadrangle was pasted all round with other placards bearing slogans as "Practice National Economy," "Buy Swadeshi". A streamliner across the entrance of Bazaargate Street "Welcome, the Saint of Behar" welcomed the President.

The president triumphantly entered the premises and was saluted by a Guard of Honour by the Bhavsaru Band, and the 'A' Ward Volunteer Corps, captained by Mr. Kakabhai maintained order.

Rajen Babu was then received by Ambalal Tallakchand, Sardar Thamansingh, Bhagwandas Bhavsri, and Jamakhlal Mehta, the President and vice-President and Secretaries of the 'A' Ward Congress Committee. At the arch the President was showered with flowers from a casket above, which was opened by two girls pulling the strings from either side.

Exhibition Of A Rare Symbol

Over Rajen Babu two spear-headed National Flags (from either side of him) with an axe and kirpan making a cross at the top were made to touch—a rare symbol exhibited on Royal occasions.

Then amidst "jais" and acclamation Rajen Babu and Party drove off along Dwarkadas Street and Borah Bazar making a detour around the A Ward Office—all of them being decorated with buntings, to Bhuleshwar.

Mr. Rajendraprasad was accompanied by the office-bearers of the B. P. C. C. and Mr. A. S. L. Iyer, Chief of the National Guards.

RECEPTION AT C. WARD

After his visit to 'A' Ward Office Babu Rajendra Prasad paid a visit to the Office of the 'C' Ward Congress Committee, in the Kalbadevi Road.

The route to the office was tastefully decorated with tri-coloured flags festoons and buntings.

On arrival, Rajen Babu was accorded a reception by Mr. Nagindas T. Master, Mr. Gajendranath Sharma, President and Secretary respectively of the 'C' Ward Congress Committee.

After the introduction of several prominent workers in the Ward, Rajen Babu inspected the register of the Congress members enrolled in that Ward and expressed his appreciation of the work being done by the Office.

'C' Ward, the biggest ward in the City, holds the record of enrolling Congress members, the number being about 21,000.

After a stay of about ten minutes, Rajen Babu and party drove to the Congress House.

All along, Lady Northcote Orphanage Band waited on attendance.

AT CONGRESS HOUSE

From the "C" Ward Congress Committee office Babu Rajendra Prasad, the Congress President, accompanied by Acharya Kriplani, Messrs. K. F. Nariman, S. K. Patil, Ganpathishanker Desai and others arrived at the Congress House, where the "D" Ward Congress Committee officials were waiting to accord the President a reception.
